Labor

	Item Description	Taxable	Qty	Unit Price	Total
1	**Exchange 2010 Migration Project - Additional Configuration** Professional services to provide additional configuration outside of the original Exchange 2010 migration scope of work including: 1. AMS.NET will install Exchange 2010 Enterprise on customer provided hardware and software at the High School. This server will act as a secondary mailbox database server. This will be using the Microsoft Exchange 2010 DAG technology. District will be responsible for physically moving the server from the HS to the DO (if necessary) and loading Windows 2008 R2. 2. AMS will be responsible for adding a new VLAN/Subnet to their core switch as a heartbeat connection to the secondary server located at the high school. 3. AMS will be responsible for install Backup Exec remote agent on new Exchange server. Customer will be responsible for upgrading to Symantec 2010 and providing all necessary software and licensing. 4. AMS will be responsible for configuring nightly backups.	n/a	1	$4,500.00	$4,500.00
