Proposed SLED Banner

As indicated in the MOU between the District and SLED, raising the visibility of SLED at school sites helps to increase our ability to raise much needed resources for SLUSD schools. In that vein, we propose hanging banners at each school site that recognizes SLED's work and encourages the community to join us in our efforts to support San Leandro schools.

This would be 2' x 8' fabric banner with grommets at the top and a pole pocket at the bottom. The plan is to hang in them in the foyer (or most appropriate indoor space) of each school.

Note this is just a mock up; colors and specific wording may change but the graphic elements, dimension and message will remain the same.
