(cf. 6111 - School Calendar)

The length of the school day shall apply equally to students with disabilities unless otherwise specified in the student's individualized education program or Section 504 plan.

(cf. 6159 - Individualized Education Program)
(cf. 6164.6 - Identification and Education Under Section 504)

Prior to implementing a block schedule program in which secondary students attend class for fewer school days, the Board shall consult with the certificated and classified employees of the school in a good faith effort to reach agreement and shall also consult with parents/guardians of the students who would be affected by the change and the community at large. Such consultation shall include at least one public hearing for which the Board has given adequate notice to the employees and to the parents/guardians of affected students. (Education Code 46162)

Curriculum modification or development shall be performed by teachers, school administrators, and district administrators, with support and assistance, when available, from curriculum experts from the county office of education, postsecondary institutions, and/or curriculum or professional associations. Any modified or new curriculum shall be reviewed by the curriculum committee in accordance with the above criteria prior to being recommended to the Board.

Upon approval by the Board, a new curriculum may be implemented in a limited number of schools or classrooms on a pilot basis so that modifications may be made as necessary before implementing the curriculum districtwide.

RECOGNITION OF RELIGIOUS BELIEFS AND CUSTOMS

The Governing Board recognizes that students' education would be incomplete without an understanding of the role of religion in society. As appropriate for a particular course, teachers may objectively discuss the influences of various religions, using religious works and symbols to illustrate their relationship with culture, literature or the arts. The Board expects that such instruction will identify principles common to all religions and foster respect for the diversity of religions and customs in the world.

(cf. 6143 - Courses of Study)

In order to respect each student's individual right to freedom of religious practice, religious indoctrination is clearly forbidden in the public schools. Instruction about religion shall not promote or denigrate the beliefs or customs of any particular religion or sect, nor should a preference be shown for one religious viewpoint over another. Staff members shall be highly sensitive to their obligation not to interfere with the religious development of any student in whatever tradition the student embraces.

(cf. 1330 - Use of School Facilities)

Staff shall not endorse, encourage or solicit religious or anti-religious expression or activities among students during class time. As part of their official duties, staff shall not lead students in prayer or other religious activities. However, staff shall not prohibit or discourage any student from praying or otherwise expressing his/her religious belief as long as this does not disrupt the classroom.

(cf. 5127 - Graduation Ceremony and Activities)

Students may express their beliefs about religion in their homework, artwork and other class work if the expression is germane to the assignment. Such work shall be judged by ordinary academic standards.

(cf. 5121 - Grades/Evaluation of Student Achievement)
(cf. 5145.2 - Freedom of Speech/Expression)
(cf. 6144 - Controversial Issues)
(cf. 6154 - Homework/Make-up Work)

While teaching about religious holidays is a permissible part of the educational program, celebrating religious holidays is not allowed in the public schools. School-sponsored programs shall not be, nor have the effect of being, religiously oriented or a religious celebration. School and classroom decorations may express seasonal themes that are not religious in nature.

RECOGNITION OF RELIGIOUS BELIEFS AND CUSTOMS (continued)

Music, art, literature or drama programs having religious themes are permitted as part of the curriculum for school-sponsored activities and programs if presented in an objective manner and as a traditional part of the cultural and religious heritage. The use of religious symbols that are part of a religious holiday is permitted as a teaching aid or resource provided that such symbols are displayed as an example of cultural and religious heritage of the holiday and are temporary in nature.

WORLD/FOREIGN LANGUAGE INSTRUCTION

Content of Instruction

The district's instructional program for world languages shall be designed to help students gain knowledge about new language systems and use that knowledge to communicate. Students shall receive instruction which is aligned with state academic standards appropriate to their age and stage of linguistic and cultural proficiency in the following five categories:

1. Content: Students shall be presented with a wide variety of content that is age and stage appropriate and increases in complexity.

(cf. 6011 - Academic Standards)

2. Communication: Students shall be taught to effectively convey and receive messages by engaging in or interpreting written, spoken, and/or signed languages.

3. Cultures: Students shall receive instruction that allows them to make connections and comparisons between language and culture.

(cf. 6142.94 - History/Social Science Instruction)

4. Structures: The curriculum shall address components of grammar, syntax, and language patterns appropriate to the language being taught.

5. Settings: To help students comprehend meaning and use language that is culturally appropriate, students shall develop knowledge of the context or setting in which language is used, such as common daily settings, interpersonal settings, and informal and formal settings.

Two-Way Immersion Programs

The district may establish two-way immersion programs based on either or both of the following models:

1. A 50:50 model in which instruction is provided in the non-English target language for 50 percent of the time and in English for 50 percent of the time, throughout the duration of the program

2. A 90:10 model in which instruction is provided in the non-English target language for 90 percent of the time and in English for 10 percent of the time during the first year of the program, decreasing the percentage of time in the non-English language in each subsequent year until there is a 50:50 balance of languages

WORLD/FOREIGN LANGUAGE INSTRUCTION (continued)

English-only speakers shall be accepted into the program only during the first grade level at which the program is offered. English learners may be admitted into the program during the first or second grade level at which the program is offered. Bilingual students may enter the program at any time.

In enrolling students for the program, the district shall strive to maintain a ratio of half English speakers and half non-English speakers and such ratio shall not fall below one-third for either language group except under exceptional circumstances.

In order for a limited-English-proficient student to participate in a two-way immersion program, his/her parent/guardian shall annually submit a request for a parental exception waiver pursuant to Education Code 310-311 and 5 CCR 11309.

(cf. 6174 - Education for English Language Learners)

CIVIC EDUCATION

The Governing Board recognizes that citizen involvement in civic and political institutions is essential to a democratic government and desires to provide a comprehensive civic education program to help students acquire the knowledge, skills, and principles essential for informed, responsible citizenship.

The Board shall approve, upon the recommendation of the Superintendent or designee, academic standards and curriculum in civics and government that are aligned with state academic standards and curriculum frameworks.

(cf. 6000 - Concepts and Roles)
(cf. 6011 - Academic Standards)
(cf. 6141 - Curriculum Development and Evaluation)
(cf. 9000 - Role of the Board)

The Superintendent or designee shall determine specific courses within the K-12 curriculum in which civic education and government may be explicitly and systematically taught. He/she also shall encourage the integration of civic education into other subjects as appropriate.

(cf. 6143 - Courses of Study)
(cf. 6146.1 - High School Graduation Requirements)

The district's civic education program shall provide students with an understanding of the rights and responsibilities of citizens in American democracy and the workings of federal, state, and local governments. As appropriate, instruction should include an examination of fundamental American documents, including, but not limited to, the Declaration of Independence, the United States Constitution, the Federalist Papers, and other significant writings and speeches.

To develop a sense of political effectiveness, instruction should develop students' understanding of the importance of civic participation in a democratic society. Service learning, extracurricular and cocurricular activities, class and school elections, and observation of local government processes may be used to reinforce classroom instruction by linking civic knowledge to practical experience and encouraging civic involvement.

(cf. 1400 - Relations Between Other Governmental Agencies and the Schools)
(cf. 6142.4 - Service Learning/Community Service Classes)
(cf. 6145 - Extracurricular and Cocurricular Activities)

Instruction also should promote a student's understanding of shared democratic principles and values, such as personal responsibility, justice, equality, respect for others, civic-mindedness, and patriotism, and enable students to make their own commitment to these civic values.

Constitution/Citizenship Day

Each year on or near September 17, in commemoration of Constitution and Citizenship Day, the district may hold an educational program for students in grades K-12 pertaining to the

SERVICE LEARNING/COMMUNITY SERVICE CLASSES

The Governing Board recognizes that service learning can enhance academic outcomes, help students develop the skills and knowledge necessary to become informed and responsible citizens, and aid in individual career development. Service learning experiences may also motivate students by providing them the opportunity to apply their studies to school and community needs and showing them that they can make a contribution to their community through involved citizenship.

(cf. 6000 - Concepts and Roles)
(cf. 6011 - Academic Standards)
(cf. 6142.3 - Civic Education)

Service Learning

The Board supports service learning instructional strategies as integral components of the district's curriculum. The Board encourages staff to collaborate with local public and nonprofit agencies in order to develop service learning activities that meet educational objectives, align with state and local academic standards, and address current community needs.

(cf. 1600 - Relations Between other Governmental Agencies and the Schools)
(cf. 1700 - Relations Between Private Industry and the Schools)

The Superintendent or designee may develop a service learning plan which:

1. Integrates service learning into one or more of the core academic areas of science, English, social science, or mathematics at each grade span (K-5, 6-8, and 9-12) and includes instructional formats planned by teachers and students

2. Ensures that the service learning opportunities offered by the district help meet identified community needs and include a balance of on-campus and off-campus activities

3. Involves administrators, students, teachers, parents/guardians, and community members in the development, implementation, and evaluation of the district's plan, including a determination as to how projects will be evaluated as well as how supervision and transportation issues will be addressed

(cf. 6143 - Courses of Study)

The Superintendent or designee may provide the Board with regular reports on the implementation of the plan and its effectiveness in meeting the district's goals for service learning.

ENVIRONMENTAL EDUCATION

The Governing Board recognizes that schools play a crucial role in educating students about the importance of the environment and in preparing them to be stewards of natural resources. The Board believes that students should value the environment, respect all life forms, understand the basic ecological principles which support the planet, and live an ecologically responsible life-style.

(cf. 6000 - Concepts and Roles)
(cf. 6142.3 - Civic Education)

The Superintendent or designee may develop an environmental education program that is aligned with state academic standards and curriculum frameworks. The Superintendent or designee shall determine how the district's environmental education program will be integrated into the district's science curriculum and other subjects and courses in which the concepts may be explicitly and systematically taught.

(cf. 6011 - Academic Standards)
(cf. 6141 - Curriculum Development and Evaluation)
(cf. 6142.93 - Science Instruction)
(cf. 6143 - Courses of Study)

The goal of the district's environmental education program may be to provide students with an understanding of the interactions and interdependence of human societies and natural systems, people's dependence and influence on natural systems, the ways that natural systems change and how people can benefit and influence that change, the fact that there are no boundaries to prevent matter from flowing between systems, and the fact that decisions affecting resources and natural systems are complex and involve many factors.

The district's program may emphasize a coordination of instructional resources with active student participation in onsite resource conservation and management programs and the promotion of service learning partnerships.

PHYSICAL EDUCATION AND ACTIVITY

Definitions

Physical education is a sequential educational program that teaches students to understand and participate in regular physical activity for developing and maintaining physical fitness throughout their lifetimes, understand and improve their motor skills, enjoy using their skills and knowledge to establish a healthy lifestyle, and understand how their bodies work.

Physical activity is bodily movement that is produced by the contraction of skeletal muscle and that substantially increases energy expenditure, including exercise, sport, dance, and other movement forms.

Moderate physical activity is any activity which generally requires sustained, rhythmic movements and refers to a level of effort a healthy individual might expend while, for example, walking briskly, dancing, swimming, or bicycling on level terrain. A person should feel some exertion but should be able to carry on a conversation comfortably during the activity.

Vigorous physical activity is any activity which generally requires sustained, rhythmic movements and refers to a level of effort a healthy individual might expend while, for example, jogging, participating in high-impact aerobic dancing, swimming continuous laps, or bicycling uphill. Vigorous physical activity may be intense enough to result in a significant increase in heart and respiration rate.
