Youth Leadership Council
2016-2017
Board Presentation
April 11, 2017

THANK YOU

FOR BEING AWESOME!

WHO ARE WE?

WHY ARE WE HERE?

CURRENT DRAFT MISSION

The mission of the San Leandro Unified School District is to educate students to achieve academic excellence in order to become confident, collaborative, and engaged citizens in a community rich in heritage and diverse in culture, where we value our traditions and embrace innovation.

STUDENT CENTERED MISSION

Through tradition and innovation, the San Leandro Unified School District in collaboration with instructors, parents, and students, is committed to preparing current and future generations for life beyond school by engaging and supporting our youth to embrace the diverse cultures that make up our community.

STRENGTHS IN THE PLAN

A Day in the Life of A Middle School Student in 2020

By: Benicio, Elizabeth, Erika, Michelle, and Sebastian

Careers

SLUSD will Institutionalize work based learning and internship programs. The district will also expand career technical education and alternative programs to graduation.

Health

Health is a big factor to prepare us for the future after you have finished school to keep you healthy and be prepared for life. Therefore, it is important for you to take health classes (PE, which is actually a requirement) in school and fitness tests to keep you in shape and we should be able to have access to it.

J-1

J1 is a $104,000,000 bond for people to give and donate for San Leandro schools and new libraries for the schools so we can have a better education.

Language

We should be able to have access to helping every student know fluent english as well as learning a second language.

Parent involvement

Parents should be more involved and informed in what their children are doing in their schools and classes. Parents should also participate in their students' activities.

New standards/After school activities

New standards will be met for ELA, Math, Science, ELD, and Social Studies. There will be extra-curricular activities at middle schools and elementary schools.

Project Based Learning (PBL)

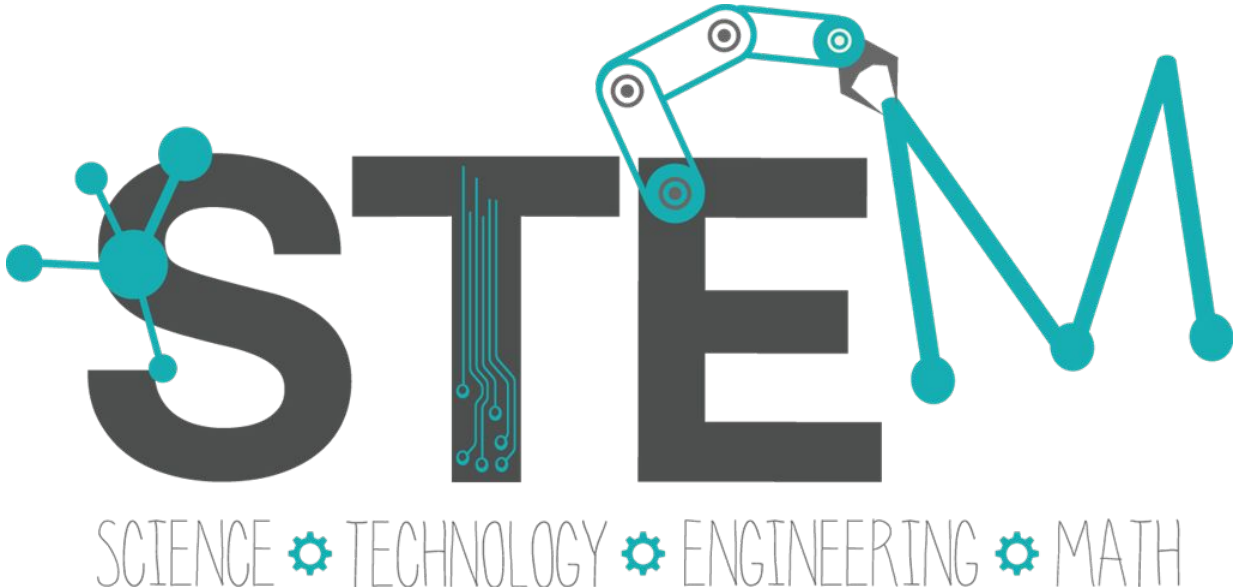

With the implementation of Project Based Learning,

the excitement of our school day will greatly increase.

S.T.E.M.

A student’s educational horizon in Science and Math would be broadened with S.T.E.M.

Teachers

Every teacher should be optimistic, positive and encouraging. The students should look forward to going to that class and eagerly participating.

Technology

Wifi access is the fastest in the state

A day in the life of a High school student in 2020

Measure J1

A bond passed by San Leandro citizens in November of 2016

Improved Libraries

Students will have a comfortable place to study in their free time.

Expansion of buildings

- No portables
- The buildings should all be connected
- Build onto what the high school has already
- Portables give a feeling of some sort of segregation

WIFI

- WIFI available to all students
- No more slow WIFI
- Pleasant experience without any errors
- Easy to use

Happy Teachers

Field Trips

More career based field trips will be offered. Students will be encouraged to experience possible future work places.

College and career

- A full staff dedicated to this center
- Students enabled full access through the day
- Career exploration (i.e. Naviance)

Internships

got internship?

HVAC Improvements

Classrooms will be cool on hot days due to the new HVAC.

Project Based Learning

- Having more time to work on projects due to block schedule
- Being more engaged in the given subject because projects are more fun as opposed to busy work

Check In with Teachers After Block Schedule Days

Tuesdays and Wednesdays will be block days. These days, students will be let out at 2:24

Parent Engagement

- Parents will be informed of all PTA/PTSO/United Parent meetings
- Effective parent feedback loops
