Growth Model

Change is the difference between performance from the ***prior*** year and ***current*** year, or between the ***current*** year and a ***multi-year average*** - if available.

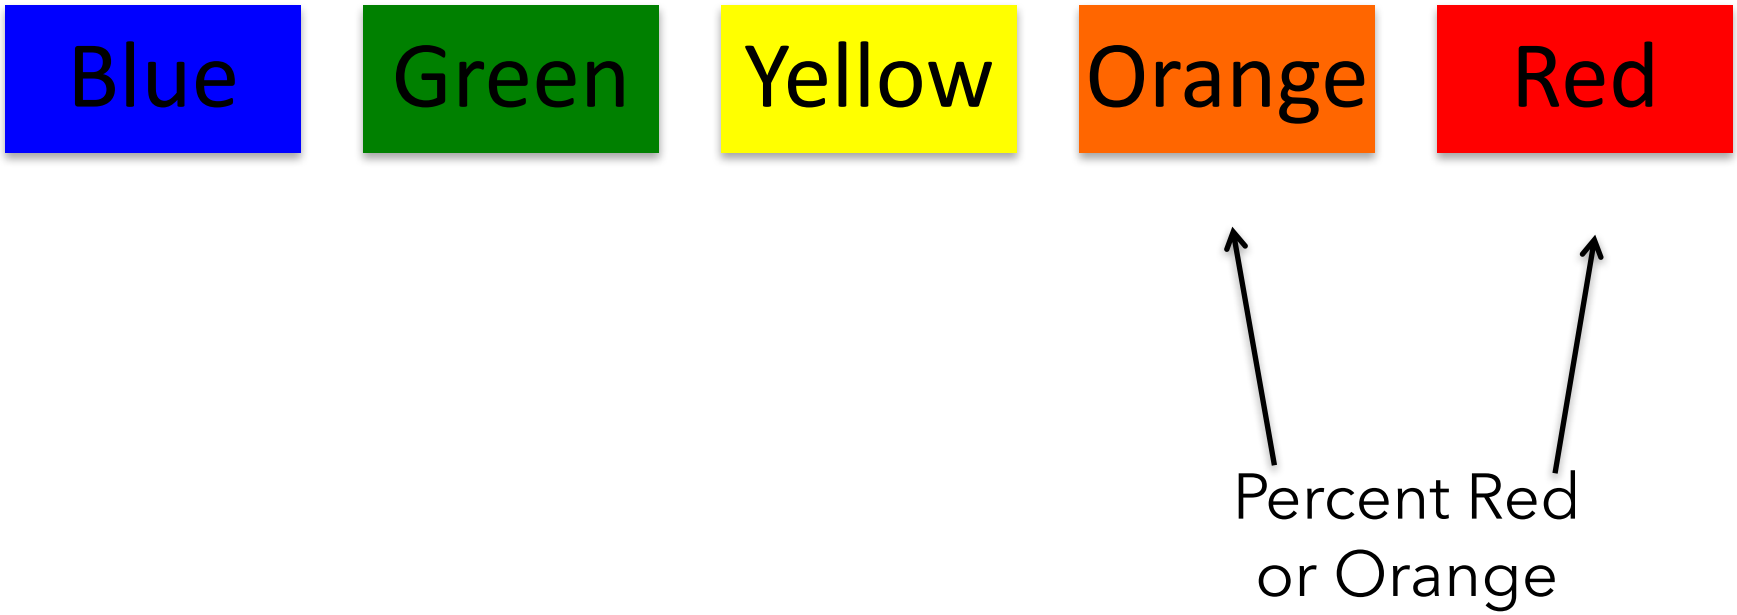

Status is based on the ***current*** year performance

Introducing the SLUSD Performance Dashboard

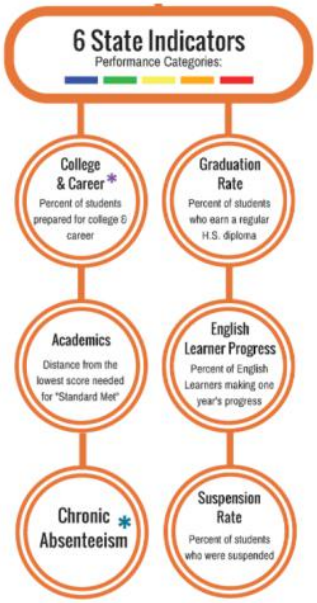

Introducing the SLUSD Performance Dashboard

San Leandro Unified School District - Performance Dashboard

The SLUSD Performance Dashboard is our way of aligning with California's current commitment to transparency and continuous improvement. SLUSD's future success depends on tapping into the potential of all students, so they graduate ready for college, careers and life. For schools to reach this goal, teachers, parents and the community need to know about our measures of progress. As an accountability tool, the Performance Dashboard keeps our community engaged around our progress, and provides clear information around where we are suceeding and where we need to improve at both a school and district level.

The Performance Dashboard provides information on different aspects of student performance, which will give a more complete picture of our district's progress. The data provided in this dashboard aligns with the state's 6 key indicators: 1) Suspension Rate Indicator 2) English Learner Progress Indicator 3) Academic Indicator (English Language Arts & Mathematics) 4) Graduation Rate Indicator 5) College & Career Indicator 6) Chronic Absenteeism Indicator. The performance levels are defined by progression of colors from blue to red. Blue is the highest and red is the lowest.

- Suspension Rate Indicator
- English Learner Progress Indicator
- Academic Indicator - English Language Arts
- Academic Indicator - Mathematics
- Graduation Rate Indicator
- College & Career Indicator (no current state data available)
- Chronic Absenteeism Indicator (no current state data available)
