Mailing, Shipping and Accounting from One Centralized Workstation

Neopost's new mailing solution revolutionizes mail processing and reporting.

The IN-710/760 maximizes efficieny by centralizing all your mail center operations into a single workstation. The large interactive display, the core of your consolidated and organized mail processing center, streamlines workflow and reduces your equipment footprint. The IN-710/760 gives you the power to process mail and parcels faster and easier than ever before.

The IN-710/760 is powered by RunMyMail software, creating an unparalleled user experience. It takes all the features from the mailing system control and applies them to the all-in-one interactive PC.

RunMyMail
BY NEOPOST

- Large, descriptive buttons and prompts enhance the visual experience for each operator
- Modern touch screen technology, similar to smartphones and tablets, makes navigation a breeze
- Expedite mail processing operations with the touch of a finger

Ship packages with ease using optional NeoShip software. Access your MyNeopost online account and enjoy the benefits of NeoShip.

- Automatically qualify for Commercial Base Pricing
- Create and print IM®pb-compliant labels from your workstation
- Enjoy free address correction services and insurance coverage — Priority Mail® (up to $50 value), Priority Mail Express™ (up to $100 value)
- Generate detailed shipment history, operator shipment and transactions reports
- Obtain consolidated views of all shipments 24/7

Environmental Commitment

The IN-710/760 carries Neopost's Eco-Label which aims to provide a clear and consistent set of environmental performance criteria used in the design phase of our products.

How We Reduce Our Environmental Footprint:

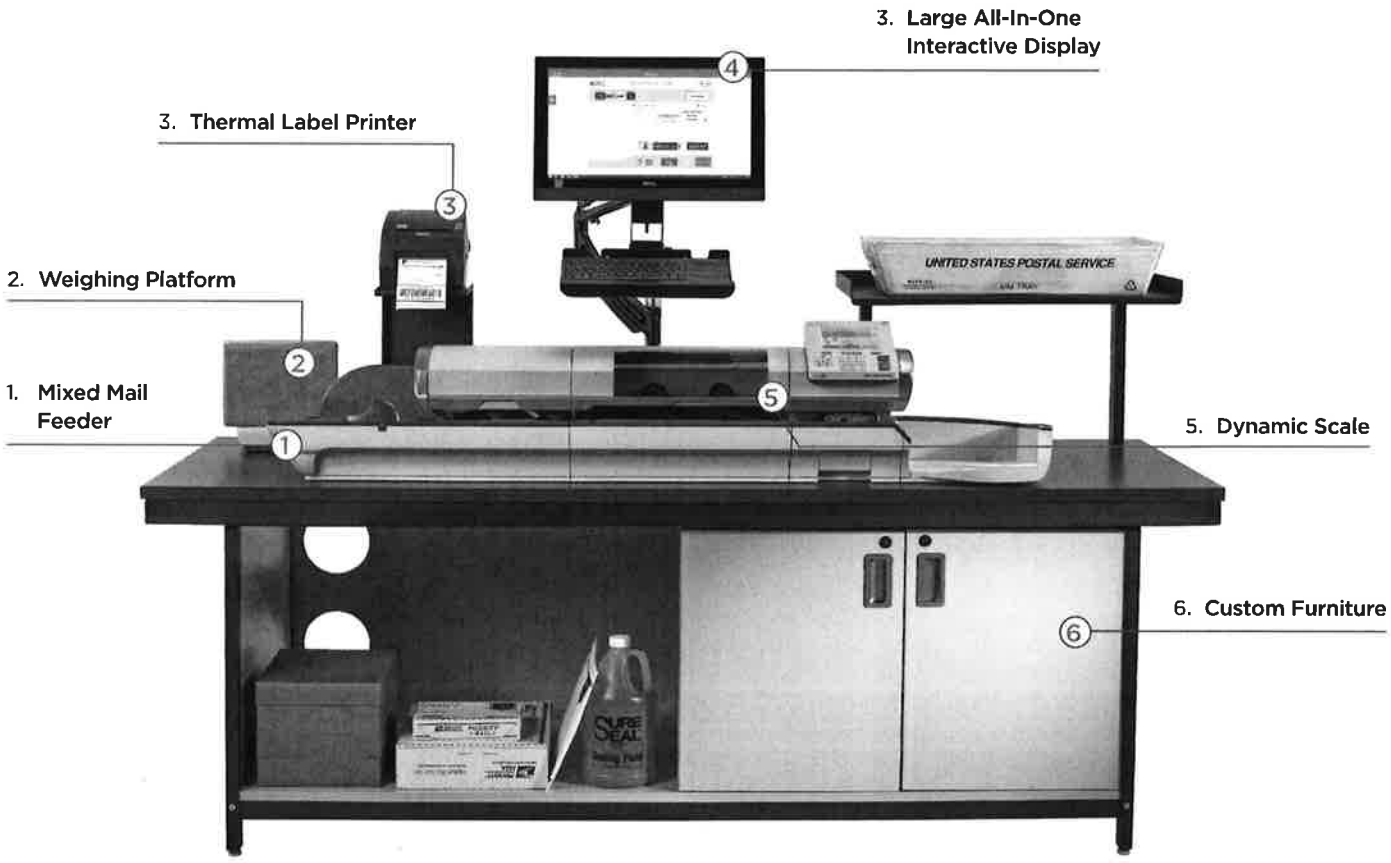

- Neopost limits the machine weight and the amount of raw materials used for production.
- The volume of our packaging is kept to a minimum and is 100% cardboard and recyclable.
- Packaging for the IN-710/760 represents less than 20% of the total weight of the packed product.
- The user-friendly sleep mode helps reduce energy consumption.
- We develop our products to ensure a minimum recyclability rate of 75%.

The IN-710/760 is compliant with environmental Regulations and ENERGY STAR

Combined with NeoStats, Neopost's postage expense management and reporting application, the IN-710/760 is the ideal solution to monitor, track and control postage costs.

- Generate reports to meet your business needs based on mail class, department and/or operator
- Create spreadsheets and eye-catching, colorful graphs in minutes
- Export and share data for additional analysis

Performance and Productivity

1. Mixed Mail Feeder

Eliminates hand sorting by size or weight. Self-aligning rollers prevent jams or misprints. The 700 Series is among the strongest performers in the market, processing up to 140 lpm (IN-710) and 175 lpm (IN-760).

2. Weighing Platform

Handles even the heaviest parcels and oversized packages. Available platforms include: 5, 10, 30 and 70 lb. Add differential weighing to reduce manual processing and handling.

3. Thermal Label Printer

Generates IM®pb-compliant shipping labels in seconds. Peel-and-stick labels are ready to be applied to your parcels.

4. Large All-In-One Interactive Display

Enhances user experience. Touch screen and standalone wireless keyboard make navigation a breeze.

5. Dynamic Scale

Weighs, rates and classifies mail at speeds up to 75 lpm (IN-710) and 110 lpm (IN-760). Reliable sensors detect dimensions to ensure compliance to USPS® Shape-Based Pricing requirements.

6. Custom Furniture

Provides the ideal workspace for an IN-710/760 mailing solution. 84" custom furniture is available with several mounting options.
