INDEPENDENT AUDITOR'S REPORT

Governing Board
San Leandro Unified School District
San Leandro, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the San Leandro Unified School District (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and the *2016-2017 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting,* issued by the California Education Audit Appeals Panel as regulations. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the San Leandro Unified School District, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 14, budgetary comparison schedules on pages 64 through 65, schedule of other postemployment benefits funding progress on page 66, schedule of the district's proportionate share of net pension liability on page 67, and the schedule of district pension contributions on page 68, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the San Leandro Unified School District's basic financial statements. The accompanying supplementary information such as the combining and individual nonmajor fund financial statements and Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)* and the other supplementary information as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 27, 2017, on our consideration of the San Leandro Unified School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Unified School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering San Leandro Unified School Districts internal control over financial reporting and compliance.

Business & Operations

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2017

This section of San Leandro Unified School District's (the District) annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2017. Please read it in conjunction with the District's financial statements, which immediately follow this section.

DISTRICT PROFILE

The San Leandro Unified School District is located in Alameda County. The District serves 8,560 students of a diverse population. The District currently operates 13 schools, consisting of 8 elementary (grades K-5), 2 middle schools (grades 6-8), one comprehensive high school (grades 9-12), one continuation high school, one adult school and one independent study program. As of June 30, 2017, the District employs on a regular basis 478 certificated and 268 classified employees.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – the management discussion and analysis (this section), the basic financial statements, and the required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are district-wide financial statements that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements.
    - The *governmental funds* statements tell how basic services such as regular and special education were financed in the short term as well as what funding remains for future spending.
    - The *proprietary funds* statements explain the short and long-term financial information about District activities that operate similar to businesses such as the self-insurance fund.
    - *Fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others to whom the resources belong.

Figure A-1 on the next page summarizes the major features of the District's basic financial statements, including the portion of the District's activities they cover and the types of information they contain.

Figure A-1
Major Features of the District wide and Fund Financial Statements

Type of Statements	District-wide	Governmental Funds	Fiduciary Funds	Proprietary Funds
Scope	Entire District, except fiduciary activities	The activities of the District that are not proprietary or fiduciary, such as special education and building maintenance	Instances in which the District administers resources on behalf of someone else, such as student body activities	Activities of the District that operate like a business, such as self-insurance funds
Required financial statements	• Statement of Net Position • Statement of Activities	• Balance sheet. • Statement of Revenues, Expenditures & changes in fund balances • Reconciliation to government wide financial statements	• Statement of fiduciary net assets.	• Statement of Net Position • Statement of Revenues, Expenses, & Changes in Net Position • Statement of Cash Flows
Accounting basis and Measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both short-term and long-term; standard funds do not currently contain non-financial assets, though they can	All assets and liabilities, both short-term and long-term; standard funds do not currently contain non-financial assets, though they can
Type of inflow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenue and expenses during the year, regardless of when cash is received or paid	All revenue and expenses during the year, regardless of when cash is received or paid

The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

The Financial Statements

The financial statements presented herein include all of the activities of the District and its component units using the integrated approach as prescribed by Governmental Accounting Standards Board (GASB) Statement No. 34.

The *Government-Wide Financial Statements* present the financial picture of the District from the economic resources measurement focus using the accrual basis of accounting. They present governmental activities. These statements include all assets of the District (including capital assets), as well as all liabilities (including long-term obligations). Additionally, certain eliminations have occurred as prescribed by the statement in regards to inter-fund activity, payables, and receivables.

The *Fund Financial Statements* include statements for each of the three categories of activities: governmental and fiduciary.

The *Governmental Activities* are prepared using the current financial resources measurement focus and modified accrual basis of accounting.

The *Fiduciary Activities* are prepared using the economic resources measurement focus and the accrual basis of accounting.

Reconciliation of the Fund Financial Statements to the Government-Wide Financial Statements is provided to explain the differences created by the integrated approach.

The Primary unit of the government is the San Leandro Unified School District.

REPORTING THE DISTRICT AS A WHOLE

The Statement of Net Position and the Statement of Activities

The *Statement of Net Position* and the *Statement of Activities* report information about the District as a whole and about its activities. These statements include all assets and liabilities of the District using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's net position and changes in them. Net position is the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources, which is one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position will serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Other factors to consider are changes in the District's property tax base and the condition of the District's facilities.

The relationship between revenues and expenses is the District's *operating results.* Since the governing board's responsibility is to provide services to our students and not to generate profit as commercial entities do, one must consider other factors when evaluating the overall health of the District. The quality of the education and the safety of our schools will likely be an important component in this evaluation.

In the *Statement of Net Position* and the *Statement of Activities*, we present the District activities as follows:

Governmental Activities - All of the District's services are reported in this category. This includes the education of kindergarten through grade twelve students, adult education students, the operation of child development activities, and the on-going effort to improve and maintain buildings and sites. Property taxes, State income taxes, user fees, interest income, Federal, State, and local grants, as well as general obligation bonds, finance these activities.

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds - not the District as a whole. Some funds are required to be established by State law and by bond covenants. However, management establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money that it receives from the U.S. Department of Education.

Governmental Funds - All of the District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The differences of results in the governmental fund financial statements to those in the government-wide financial statements are explained in a reconciliation following each governmental fund financial statement.

Proprietary Funds - When the District charges users for the services it provides, whether to outside customers or to other departments within the District, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the *Statement of Net Position* and the *Statement of Revenues, Expenses, and Changes in Fund Net Position*. In fact, the District's enterprise funds are the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows, for proprietary funds. We use internal service funds (the other component of proprietary funds) to report activities that provide supplies and services for the District's other programs and activities, such as the District's Self-Insurance Fund. The internal service funds are reported with governmental activities in the government-wide financial statements.

THE DISTRICT AS A TRUSTEE

Reporting the Districts Fiduciary Responsibilities

The District is the trustee, or *fiduciary,* for funds held on behalf of others, like our funds for associated student body activities. The District's fiduciary activities are reported in the *Statements of Fiduciary Net Position.* We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

THE DISTRICT AS A WHOLE

Net Position

The District's net position was negative $39.1 million for the fiscal year ended June 30, 2017. Of this amount, $21.0 million was restricted. Restricted net position is reported separately to shows legal constraints from debt covenants and enabling legislation that limit the governing board's ability to use net position for day-to-day operations. Our analysis below, in summary form, focuses on the net position (Table 1) and change in net position (Table 2) of the District's governmental activities.

Table 1 – Comparison of Net Position

(Amounts in millions)	Governmental Activities	
	2017	2016
Assets		
Current and other assets	$ 72.6	$ 28.6
Capital assets	220.0	231.3
Total Assets	**292.6**	**259.9**
Deferred Outflows of Resources	**20.5**	**17.0**
Liabilities		
Current liabilities	8.0	9.2
Long-term obligations	338.6	281.4
Total Liabilities	**346.6**	**290.6**
Deferred Inflows of Resources	**5.6**	**15.8**
Net Position		
Net investment in capital assets	19.5	35.1
Restricted	21.0	11.1
Unrestricted	(79.6)	(75.7)
Total Net Position	**$ (39.1)**	**$ (29.5)**

The negative $39.1 million in net position of governmental activities represents the accumulated results of all past years' operations. Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – increased by 5.1 percent (negative $79.6 million in current year compared to negative $75.7 million in prior year).

Changes in Net Position

The results of this year's operations for the District as a whole are reported in the *Statement of Activities* on page 16. Table 2 takes the information from the Statement, rounds off the numbers, and rearranges them slightly so you can see our total revenues for the year.

Table 2 – Changes in Net Position

(Amounts in millions)	Governmental Activities	
	2017	2016
Revenues		
Program revenues:		
Charges for services	$ 0.8	$ 0.6
Operating grants and contributions	18.7	17.5
General revenues:		
Federal and State aid not restricted	54.6	55.9
Property taxes	39.1	36.7
Other general revenues	3.5	4.3
Total Revenues	**116.7**	**115.0**
Expenses		
Instruction-related	84.0	80.7
Student support services	12.6	9.1
Administration	6.9	7.3
Maintenance and operations	12.3	11.0
Other	10.5	10.0
Total Expenses	**126.3**	**118.1**
Change in Net Position	**$ (9.6)**	**$ (3.1)**

Governmental Activities

As reported in the *Statement of Activities* on page 16, the cost of all of our governmental activities this year was $126.3 million. The cost paid by those who benefited from the programs was $0.8 million. Operating grants and contributions subsidized certain programs in the amount of $18.7 million. We paid for the remaining "public benefit" portion of our governmental activities with $39.1 million in taxes, unrestricted Federal and State aid of $54.6 million and other revenues of $3.5 million for the fiscal year ended June 30, 2017.

In Table 3, we have presented the cost and net cost of each of the District's largest functions: instruction related, student support services, administration, maintenance and operations, and other. As discussed above, net cost shows the financial burden that was placed on the District's taxpayers by each of these functions. Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

Table 3 – Comparison of Total Cost of Services

(Amounts in millions)	Total Cost of Services		Net Cost of Services	
	2017	2016	2017	2016
Instruction-related	$ 84.0	$ 80.7	$ 71.7	$ 68.7
Student support services	12.6	9.1	7.2	4.7
School administration	6.9	7.3	6.5	6.8
Maintenance and operations	12.3	11.0	12.1	11.0
Other	10.5	10.0	9.4	8.8
Total	**$ 126.3**	**$ 118.1**	**$ 106.9**	**$ 100.0**

THE DISTRICT'S FUNDS

As the District completed this year, our governmental funds reported a combined fund balance of $67.3 million, which is an increase of $44.9 million from last year (Table 4).

Table 4 – Comparison of Revenues and Expenditures by Major Fund

(Amounts in millions)	Balances and Activity			
	July 1, 2016	Revenues	Expenditures	June 30, 2017
General	$ 5.9	$ 94.9	$ 94.2	$ 6.6
Adult Education	1.6	3.0	3.0	1.6
Building	2.6	47.9	9.5	41.0
Bond Interest and Redemption	8.2	44.4	39.5	13.1
Other	4.1	5.1	4.2	5.0
Total	**$ 22.4**	**$ 195.3**	**$ 150.4**	**$ 67.3**

The primary reasons for these increases/decreases are:

a. Our General Fund is our principal operating fund. The fund balance in the General Fund increased from $5.9 million to $6.6 million. This increase primarily due to the transfer of restricted facilities revenue to the General Fund.
b. Our Adult Education Fund remained unchanged.
c. Our Building Fund increased from $2.6 million to $41.0 million primarily due to new bonds issued during the year.
d. The Bond Interest and Redemption Fund increased from $8.2 million to $13.1 million due to new proceeds from new bond issued.

General Fund Budgetary Highlights

Over the course of the year, the District revises its budget as it attempts to deal with unexpected changes in revenues and expenditures. The final amendment to the budget was adopted on June 20, 2017. (A schedule showing the District's original and final budget amounts compared with amounts actually paid and received is provided in our annual report on page 64).

Revenues:

- Significant revenue revisions made to the 2015-2016 Budget were due to an increase in enrollment and subsequent ADA.

Expenditures:

- Budgeted salary expenditures increased by 2.5% for collective bargaining settlements reached for the 2016-2017.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2017, the District had $220.0 million in a broad range of capital assets (net of depreciation), including land, buildings, furniture, and equipment. This amount represents a net decrease (including additions, deductions, and depreciation) of $11.3 million, or 4.9 percent, from last year (Table 5).

Table 5

(Amounts in millions)	Governmental Activities	
	2017	2016
Land and construction in progress	$ 14.5	$ 16.8
Buildings and improvements	313.8	311.0
Equipment	9.8	9.5
Less: Accumulated Depreciation	(118.1)	(106.0)
Total	**$ 220.0**	**$ 231.3**

This year's additions of $.8 million included new fencing and improved classrooms.

Several capital projects are scheduled to begin in 2017-2018. The District is undergoing renovation of school libraries, upgrades to electrical systems, and installation of HVAC in all classrooms. We present more detail information about our capital assets in Note 5 to the financial statements.

Long-Term Obligations

At the end of this year, the District had $240.5 million in general obligation bonds outstanding versus $192.7 million last year, an increase of 24.8 percent. Those long-term obligations consisted of:

Table 6 – Long Term Obligations

(Amounts in millions)	Governmental Activities	
	2017	2015
General obligation bonds (financed with property taxes)	$ 240.5	$ 192.7
Certificates of participation	-	0.2
Note payable	0.9	1.0
Qualified Zone Academy Bonds	-	5.0
Capitalized lease obligations	0.8	0.9
Other	1.3	1.2
Total	**$ 243.5**	**$ 201.0**

The District's general obligation bond rating was an "A" as per Standard & Poor's Ratings Services in April 2017. The State limits the amount of general obligation debt that districts can issue to 2.5 percent of the assessed value of all taxable property within the District's boundaries. The District's outstanding general obligation bond debt of $240.5 million is significantly below this statutorily-imposed limit.

Other obligations include compensated absences payable and postemployment benefits (not including health benefits). We present more detailed information regarding our long-term obligations in Notes 8 to the financial statements.

Net Pension Liability (NPL)

As of June 30, 2017, the District reported $19.8 million in Deferred Outflows of Resources related to pension, $5.6 million Deferred Inflows of Resources related to pension, and $95.1 million in Net Pension Liability. We present more detail information regarding pension liability in Note 12.

ECONOMIC FACTORS AND BUDGET ASSUMPTIONS USED FOR 2017-18 BUDGET

The following are the budget assumptions used to calculate the District's budget for 2017-18. The District used the most current information available at that time. The budget assumptions are updated during the fiscal year as new information becomes available.

Revenue Assumptions:

- Enrollment for 2017-18 is projected at 8,638 students, the same as 2016-17
- Average Daily Attendance (ADA) is projected to be 8,240, which represents 95% attendance rate to enrollment rate,
- Cost of Living Allowance (COLA) is projected at 1.56 %, the same rate used to LCFF, Special Education, Child Nutrition and Foster Youth
- Local Control Funding Formula (LCFF) is calculated using 43.97% LCFF gap funding rate.
- Unduplicated count of students who are eligible for Free and Reduced Price Meals (FRPM), English Learners (EL) and Foster Youth is projected at 67% of the District's enrollment.
- One-time State Discretionary Funding of $147 per ADA which is an estimate of $ 1.2 Million.
- Mandated Block Grant is estimated at $30 per student for Grades K-8 and $58 per student for Grades 9-12.
- Lottery funding is estimated at $146 per ADA for unrestricted and $48 per ADA restricted (Prop 20-Textbook funding).
- A new one-time state funded College Readiness Block Grant began in 2016/17.
- Local Parcel Tax revenues are projected at $750,000.
- Each year, unused funding for categorical programs - federal, state and local are carryover and forwarded to the next fiscal year.

Expenditure Assumptions:

- Classroom staffing is estimated using the following class sizes and ratio as defined in the bargaining agreement: Staffing Ratio Enrollment

Grades Kindergarten through third	26:1	2606
Grades four through eight	32:1	3296
Grades nine through twelve	35:1	2763

- District Bargaining Units – San Leandro Teachers Association (SLTA), California School Employees Association (CSEA), Teamster and Trade Unions, and Unrepresented Group Unit have reached salary settlement of 2.5% salary increase for fiscal year 2016- 17.
- Step and Column increases are included in the adopted budget.
- Employers' STRS and PERS Rate increases are included.
- District's State approved indirect cost rate is 6.48% for 2016-17.
- Proceeds from Parcel Tax are allocated for classroom teacher positions.
- Contributions to Routine Repair Maintenance Account, Transportation and Special Education will continue.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need any additional financial information, contact the Assistant Superintendent, Business Services, at San Leandro Unified School District, 835 East 14th Street, Suite 200, San Leandro, California, 94577, or e-mail at kcollins@slusd.us.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION
JUNE 30, 2017

Total Fund Balance - Governmental Funds		**$ 67,338,172**
Amounts Reported for Governmental Activities in the Statement of Net Position are Different Because:		
Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds.		
The cost of capital assets is	$ 338,115,305	
Accumulated depreciation is	(118,150,264)	
Net Capital Assets		219,965,041
In governmental funds, unmatured interest on long-term obligations is recognized in the period when it is due. On the government-wide financial statements, unmatured interest on long-term obligations is recognized when it is incurred.		(2,838,020)
An internal service fund is used by the District's management to charge the costs of the workers' compensation insurance program to the individual funds. The assets and liabilities of the internal service fund are included with governmental activities.		176,119
Deferred inflows and outflows of resources related to pension liablility are not recognized on the modified accrual basis, but are amortized over the remaining service life of the members receiving pension benefits using the accrual basis.		14,199,354
Deferred outflows of resources related to loss on bond refunding are not recognized on the modified accrual basis, but are included in the governmentwide statements.		742,067
Long-term obligations, including bonds payable, are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds.		
Long-term obligations at year-end consist of:		
Bonds payable	$ 225,924,799	
Capital leases payable	806,523	
Premiums, net of accumulated amortization	14,539,269	
Compensated absences (vacations)	619,798	
Other post employment benefits (OPEB)	674,344	
Note payable	940,074	
Net pension liability	95,147,272	
Total Long-Term Obligations		(338,652,079)
Total Net Position - Governmental Activities		**$ (39,069,346)**

SAN LEANDRO UNIFIED SCHOOL DISTRICT

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
JUNE 30, 2017

Total Net Change in Fund Balances - Governmental Funds		**$ 44,929,498**
Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:		
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures; however, for governmental activities, those costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities.		
This is the amount by which depreciation exceeds capital outlay in the period.		
Depreciation expense	$ (12,161,302)	
Capital outlays	776,505	
Net Expense Adjustment		(11,384,797)
In the Statement of Activities, certain operating expenses, such as compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). Vacation used was less than the amounts earned by $45,210.		(45,210)
In the governmental funds, pension costs are based on employer contributions made to pension plans during the year. However, in the Statement of Activities, pension expense is the net effect of all changes in the deferred outflows, deferred inflows and net pension liability during the year.		(1,770,973)
Proceeds received from Sale of Bonds and issuance of debt is an other source in the governmental funds, but it increases long-term obligations in the Statement of Net Position and does not affect the Statement of Activities.		(88,835,000)
Premiums received on the issuance of bonds is a revenue in the governmental funds, but is recoginzed as a liability on the statement of net position and amortized over the life of the bonds.		(10,221,386)
Payment of principal on general obligation bonds and notes is an expenditure in the governmental funds, but it reduces long-term obligations in the Statement of Net Position and does not affect the Statement of Activities.		50,779,924
Premiums on bonds are amortized over the term of the bond in the government-wide statements, but are recorded as an other source of funds in the year of issue on the governmental fund statements		1,278,071
Payment of principal on capital leases is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Position and does not affect the Statement of Activities.		5,154,415
Payment of principal on certificates of participation are an expenditure in the governmental funds, but it reduces long-term obligations in the Statement of Net Position and does not affect the Statement of Activities.		204,658
Current year changes to the Other Postemployment Benefit are recognized in the Statement of Activiteis.		(45,910)
Interest on long-term obligations is recorded as an expenditure in the governmental funds when it is due; however, in the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due.		396,333
An internal service fund is used by the District's management to charge the costs of the self insurance program to the individual funds. The net revenue of the Internal Service Fund is reported with governmental activities.		25
Change in Net Position of Governmental Activities		**$ (9,560,352)**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

The San Leandro Unified School District was organized on July 1, 1952 under the laws of the State of California. The District operates under a locally elected seven-member Board form of government and provides educational services to grades K - 12 as mandated by the State and/or Federal agencies. The District operates eight elementary schools, two middle schools, one comprehensive high school, one continuation high school, one adult school, and an independent study center.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For San Leandro Unified School District, this includes general operations, food service, and student related activities of the District.

Basis of Presentation - Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The District's funds are grouped into three broad fund categories: governmental, proprietary, and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major and non-major governmental funds:

Major Governmental Funds

General Fund The General Fund is the chief operating fund for all districts. It is used to account for the ordinary operations of the District. All transactions except those accounted for in another fund are accounted for in this fund.

Adult Education Fund The Adult Education Fund is used to account separately for Federal, State, and local revenues for adult education programs and is to be expended for adult education purposes only.

Building Fund The Building Fund exists primarily to account separately for proceeds from the sale of bonds (*Education Code* Section 15146) and may not be used for any purposes other than those for which the bonds were issued.

Bond Interest and Redemption Fund The Bond Interest and Redemption Fund is used for the repayment of bonds issued for a district (*Education Code* Sections 15125-15262).

Non-Major Governmental Funds

Special Revenue Funds The Special Revenue funds are established to account for the proceeds from specific revenue sources (other than trusts, major capital projects, or debt service) that are restricted or committed to expenditures for specified purposes and that compose a substantial portion of the inflows of the fund. Additional resources that are restricted, committed, or assigned to the purpose of the fund may also be reported in the fund.

Cafeteria Fund The Cafeteria Fund is used to account separately for Federal, State, and local resources to operate the food service program (*Education Code* Sections 38090-38093) and is used only for those expenditures authorized by the governing board as necessary for the operation of the District's food service program (*Education Code* Sections 38091 and 38100).

Capital Project Funds The Capital Project funds are used to account for and report financial resources that are restricted, committed, or assigned the acquisition or construction of capital facilities and other capital assets (other than those financed by proprietary funds and trust funds).

Capital Facilities Fund The Capital Facilities Fund is used primarily to account separately for monies received from fees levied on developers or other agencies as a condition of approving a development (*Education Code* Sections 17620-17626). Expenditures are restricted to the purposes specified in *Government Code* Sections 65970-65981 or to the items specified in agreements with the developer (*Government Code* Section 66006).

County School Facilities Fund The County School Facilities Fund is established pursuant to *Education Code* Section 17070.43 to receive apportionments from the 1998 State School Facilities Fund (Proposition lA), the 2002 State School Facilities Fund (Proposition 47), or the 2004 State School Facilities Fund (Proposition 55), or the 2006 State Schools Facilities Fund (Proposition 1D), authorized by the State Allocation Board for new school facility construction, modernization projects, and facility hardship grants, as provided in the Leroy F. Greene School Facilities Act of 1998 (*Education Code* Section 17070 et seq.).

Special Reserve Fund for Capital Outlay Projects The Special Reserve Fund for Capital Outlay Projects exists primarily to provide for the accumulation of General Fund monies for capital outlay purposes (*Education Code* Section 42840).

Proprietary Funds Proprietary funds are used to account for activities that are more business-like than government-like in nature. Business-type activities include those for which fee is charged to external users or to other organizational units of the local education agency, normally on a full cost-recovery basis. Proprietary funds are generally intended to be self-supporting and are classified as enterprise or internal service. The District proprietary funds has the following internal services fund:

Internal Service Fund Internal Service funds may be used to account for goods or services provided to other funds of the District on a cost-reimbursement basis. The District operates a self insurance that is accounted for in an internal service fund.

Fiduciary Funds Fiduciary funds are used to account for assets held in trustee or agent capacity for others that cannot be used to support the District's own programs. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. The key distinction between trust and agency funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Such funds have no equity accounts since all assets are due to individuals or entities at some future time. The District's agency fund accounts for student body activities (ASB).

Basis of Accounting - Measurement Focus

Government-Wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared.

The government-wide statement of activities presents a comparison between expenses, both direct and indirect, of the District and for each governmental function, and exclude fiduciary activity. Direct expenses are those that are specifically associated with a service, program, or department and are therefore, clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the *Statement of Activities*, except for depreciation. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District. Eliminations have been made to minimize the double counting of internal activities.

Net position should be reported as restricted when constraints placed on net position use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other activities result from special revenue funds and the restrictions on their use.

Fund Financial Statements Fund financial statements report detailed information about the District. The focus of governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

Governmental Funds All governmental funds are accounted for using the flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide financial statements, prepared using the economic resources measurement focus and the accrual basis of accounting, and the governmental fund financial statements, prepared using the flow of current financial resources measurement focus and the modified accrual basis of accounting.

Proprietary Funds Proprietary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. All assets and all liabilities associated with the operation of this fund are included in the statement of net position. The statement of changes in fund net position presents increases (revenues) and decreases (expenses) in net total position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary fund.

Fiduciary Funds Fiduciary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are excluded from the government-wide financial statements because they do not represent resources of the District.

Revenues – Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter, to be used to pay liabilities of the current fiscal year. Generally, available is defined as collectible within 45 or 60 days. However, to achieve comparability of reporting among California districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to State-aid apportionments, the California Department of Education has defined available for districts as collectible within one year. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose restrictions. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable, and typically paid within 90 days. Principal and interest on long-term obligations, which has not matured, are recognized when paid in the governmental funds as expenditures. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds but are recognized in the entity-wide statements.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include cash with county treasury balances for purposes of the statement of cash flows.

Investments

Investments held at June 30, 2017, with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in county and State investment pools are determined by the program sponsor.

Stores Inventories

Inventories consist of expendable food and supplies held for consumption. Inventories are stated at the latest invoice cost, on the first-in, first-out basis. The costs of inventory items are recorded as expenditures in the governmental funds and expenses in the proprietary funds when used.

Capital Assets and Depreciation

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets are long-lived assets of the District. The District maintains a capitalization threshold of $5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized, but are expensed as incurred.

When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in the government-wide statement of net position. The valuation basis for capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. Donated capital assets are capitalized at estimated fair market value on the date donated.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets is the same as those used for the capital assets of governmental funds.

Depreciation is computed using the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings, 20 to 50 years; improvements/infrastructure, 5 to 50 years; equipment, 2 to 15 years.

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental columns of the statement of net position.

Compensated Absences

Compensated absences are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide statement of net position. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to year-end that have not yet been paid with expendable available financial resources. These amounts are reported in the fund from which the employees who have accumulated leave are paid.

Sick leave is accumulated without limit for each employee at the rate of one day for each month worked. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave. Credit for unused sick leave is applicable to all certificated employees and is determined by dividing the number of unused sick days by the number of base service days required to complete the last school year, if employed full-time.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide and proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the governmental funds.

However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the governmental fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases, and other long-term obligations are recognized as liabilities in the governmental fund financial statements when due.

Debt Issuance Costs, Premiums and Discounts

In the government-wide financial statements and in the proprietary fund type financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, or proprietary fund statement of net position. Debt premiums and discounts, as well as issuance costs, related to prepaid insurance costs are amortized over the life of the bonds using the straight-line method.

In governmental fund financial statements, bond premiums and discounts, as well as debt issuance costs are recognized in the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuance are also reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as debt service expenditures.

Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position also reports deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The District reports deferred outflows of resources for pension related items.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The District reports deferred inflows of resources for pension related items.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California State Teachers Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

Fund Balances - Governmental Funds

As of June 30, 2017, fund balances of the governmental funds are classified as follows:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed - amounts that can be used only for specific purposes determined by a formal action of the governing board. The governing board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through resolutions or other action as approved by the governing board. The District currently does not have any committed funds.

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the District's adopted policy, only the governing board or chief business officer/assistant superintendent of business services may assign amounts for specific purposes.

Unassigned - all other spendable amounts.

Spending Order Policy

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the governing board has provided otherwise in its commitment or assignment actions.

Minimum Fund Balance Policy

The governing board adopted a minimum fund balance policy for the General Fund in order to protect the district against revenue shortfalls or unpredicted on-time expenditures. The policy requires a Reserve for Economic Uncertainties consisting of unassigned amounts equal to no less than 3 percent of General Fund expenditures and other financing uses.

Net Position

Net position represents the difference between assets and liabilities. Net position net of investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. The government-wide financial statements report $20,985,215 of restricted net position.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are in-district premiums. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented in the financial statements.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Budgetary Data

The budgetary process is prescribed by provisions of the California *Education Code* and requires the governing board to hold a public hearing and adopt an operating budget no later than July 1st of each year. The District governing board satisfied these requirements. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for. For budget purposes, on behalf payments have not been included as revenue and expenditures as required under generally accepted accounting principles.

Property Tax

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of Alameda bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

Changes in Accounting Principles

In December 2015, the GASB issued Statement No. 78, *Pensions Provided Through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this Statement is to address a practice issue regarding the scope and applicability of Statement No. 68, *Accounting and Financial Reporting for Pensions*. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions.

Prior to the issuance of this Statement, the requirements of Statement No. 68 applied to the financial statements of all state and local governmental employers whose employees are provided with pensions through pension plans that are administered through trusts that meet the criteria in paragraph 4 of that Statement.

This Statement amends the scope and applicability of Statement No. 68 to exclude pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that (1) is not a state or local governmental pension plan, (2) is used to provide defined benefit pensions both to employees of state or local governmental employers and to employees of employers that are not state or local governmental employers, and (3) has no predominant state or local governmental employer (either individually or collectively with other state or local governmental employers that provide pensions through the pension plan). This Statement establishes requirements for recognition and measurement of pension expense, expenditures, and liabilities; note disclosures; and required supplementary information for pensions that have the characteristics described above.

The District has implemented the provisions of this Statement as of June 30, 2017.

In March 2016, the GASB issued Statement No. 82, *Pension Issues - An Amendment of GASB Statements No. 67, No. 68, and No. 73.* The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68*. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.

The District has implemented the provisions of this Statement as of June 30, 2017, except for the requirements of this Statement for the selection of assumptions in a circumstance in which an employer's pension liability is measured as of a date other than the employer's most recent fiscal year-end. In that circumstance, the requirements for the selection of assumptions are effective for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017.

New Accounting Pronouncements

In June 2015, the GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pension.* The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This Statement replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, for OPEB. Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, establishes new accounting and financial reporting requirements for OPEB plans.

The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2017. Early implementation is encouraged.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement.

This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period.

The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2016, and should be applied retroactively. Early implementation is encouraged.

In November 2016, the GASB issued Statement No. 83, *Certain Asset Retirement Obligations.* This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement.

This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. This Statement requires that recognition occur when the liability is both incurred and reasonably estimable. The determination of when the liability is incurred should be based on the occurrence of external laws, regulations, contracts, or court judgments, together with the occurrence of an internal event that obligates a government to perform asset retirement activities. Laws and regulations may require governments to take specific actions to retire certain tangible capital assets at the end of the useful lives of those capital assets, such as decommissioning nuclear reactors and dismantling and removing sewage treatment plants. Other obligations to retire tangible capital assets may arise from contracts or court judgments. Internal obligating events include the occurrence of contamination, placing into operation a tangible capital asset that is required to be retired, abandoning a tangible capital asset before it is placed into operation, or acquiring a tangible capital asset that has an existing ARO.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Early implementation is encouraged.

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities.* The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Early implementation is encouraged.

In March 2017, the GASB issued Statement No. 85, *Omnibus 2017.* The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). Specifically, this Statement addresses the following topics:

- Blending a component unit in circumstances in which the primary government is a business-type activity that reports in a single column for financial statement presentation;
- Reporting amounts previously reported as goodwill and "negative" goodwill;
- Classifying real estate held by insurance entities;

- Measuring certain money market investments and participating interest-earning investment contracts at amortized cost;
- Timing of the measurement of pension or OPEB liabilities and expenditures recognized in financial statements prepared using the current financial resources measurement focus;
- Recognizing on-behalf payments for pensions or OPEB in employer financial statements;
- Presenting payroll-related measures in required supplementary information for purposes of reporting by OPEB plans and employers that provide OPEB;
- Classifying employer-paid member contributions for OPEB;
- Simplifying certain aspects of the alternative measurement method for OPEB;
- Accounting and financial reporting for OPEB provided through certain multiple-employer defined benefit OPEB plans.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2017. Early implementation is encouraged.

In May 2017, the GASB issued Statement No. 86, *Certain Debt Extinguishment Issues.* The primary objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2017. Early implementation is encouraged.

In June 2017, the GASB issued Statement No. 87, *Leases.* The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

The requirements of this Statement are effective for the reporting periods beginning after December 15, 2019. Early implementation is encouraged.

NOTE 2 - DEPOSITS AND INVESTMENTS

Summary of Deposits and Investments

Deposits and investments as of June 30, 2017, are classified in the accompanying financial statements as follows:

Governmental activities	$ 68,125,145
Fiduciary funds	488,176
Total Deposits and Investments	$ 68,613,321

Deposits and investments as of June 30, 2017, consist of the following:

Cash on hand and in banks	$ 585,408
Cash in revolving	40,000
Investments	67,987,913
Total Deposits and Investments	$ 68,613,321

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Investment in County Treasury - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

General Authorizations

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are indicated in the schedules below:

Authorized Investment Type	Maximum Remaining Maturity	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
Local Agency Bonds, Notes, Warrants	5 years	None	None
Registered State Bonds, Notes, Warrants	5 years	None	None
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
Banker's Acceptance	180 days	40%	30%
Commercial Paper	270 days	25%	10%
Negotiable Certificates of Deposit	5 years	30%	None
Repurchase Agreements	1 year	None	None
Reverse Repurchase Agreements	92 days	20% of base	None
Medium-Term Corporate Notes	5 years	30%	None
Mutual Funds	N/A	20%	10%
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-Through Securities	5 years	20%	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	None
Joint Powers Authority Pools	N/A	None	None

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County Pool.

Weighted Average Maturity

The District monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio. Information about the weighted average maturity of the District's portfolio is presented in the following schedule:

Investment Type	Fair Value	Weighted Average Maturity
County Pool	$ 67,987,913	393 Days

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investments in the county pool are not required to be rated, nor have they been rated as of June 30, 2017.

Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agency. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2017, approximately $89,000 of the District's bank balance was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the name of the District.

NOTE 3 - FAIR VALUE MEASUREMENTS

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value. The following provides a summary of the hierarchy used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets that the District has the ability to access at the measurement date. Level 1 assets may include debt and equity securities that are traded in an active exchange market and that are highly liquid and are actively traded in over-the-counter markets.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, or other inputs that are observable, such as interest rates and curves observable at commonly quoted intervals, implied volatilities, and credit spreads. For financial reporting purposes, if an asset has a specified term, a Level 2 input is required to be observable for substantially the full term of the asset.

Level 3 - Unobservable inputs should be developed using the best information available under the circumstances, which might include the District's own data. The District should adjust that data if reasonably available information indicates that other market participants would use different data or certain circumstances specific to the District are not available to other market participants.

Uncategorized - Investments in the Alameda County Treasury Investment Pool and Local Agency Investment Funds/State Investment Pools are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at $1.00 net asset value per share.

The District's fair value measurements are as follows at June 30, 2017:

		Fair Value Measurements Using			
Investment Type	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Uncategorized
County Pool	$ 67,987,913	$ -	$ -	$ -	$ 67,987,913

All assets have been valued using a market approach, with quoted market prices.

NOTE 4 - RECEIVABLES

Receivables at June 30, 2017, consisted of intergovernmental grants, entitlements, interest and other local sources. All receivables are considered collectible in full.

	General Fund	Adult Education Fund	Non-Major Governmental Funds	Total	Proprietary Funds
Federal Government					
Categorical aid	$ 2,064,156	$ 149,143	$ 527,068	$ 2,740,367	$ -
State Government					
State principle apportionment	95,077	-	-	95,077	-
Categorical aid	356,868	-	24,572	381,440	-
Lottery	791,663	-	-	791,663	-
Other State	-		-	-	-
Local Government				-	-
Interest	-		-	-	-
Other Local Sources	267,548	123,613	86,494	477,655	166
Total	$ 3,575,312	$ 272,756	$ 638,134	$ 4,486,202	$ 166

NOTE 5 - CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2017, was as follows:

	Balance July 1, 2016	Additions	Deductions	Balance June 30, 2017
Governmental Activities				
Capital Assets Not Being Depreciated:				
Land	$ 14,369,105	$ -	$ -	$ 14,369,105
Construction in Progress	2,455,551	143,745	2,455,551	143,745
Total Capital Assets Not Being Depreciated	16,824,656	143,745	2,455,551	14,512,850
Capital Assets Being Depreciated:				
Land Improvements	23,147,578	1,326,035	-	24,473,613
Buildings and Improvements	287,845,371	1,438,139	-	289,283,510
Furniture and Equipment	9,521,195	324,137	-	9,845,332
Total Capital Assets Being Depreciated	320,514,144	3,088,311	-	323,602,455
Total Capital Assets	337,338,800	3,232,056	2,455,551	338,115,305
Less Accumulated Depreciation:				
Land Improvements	13,503,060	729,241	-	14,232,301
Buildings and Improvements	85,922,431	10,662,197	-	96,584,628
Furniture and Equipment	6,563,471	769,864	-	7,333,335
Total Accumulated Depreciation	105,988,962	12,161,302	-	118,150,264
Governmental Activities Capital Assets, Net	$ 231,349,838	$ (8,929,246)	$ 2,455,551	$ 219,965,041

Depreciation expense was charged as a direct expense to governmental functions as follows:

Governmental Activities	
Instruction	$ 7,348,595
Supervision of instruction	511,585
Instructional library, media, and technology	180,195
School site administration	833,433
Home-to-school transportation	292,123
Food services	395,911
All other pupil services	638,708
Ancillary services	103,175
Data processing	176,776
All other administration	549,340
Plant services	1,131,461
Total Depreciation Expenses	$ 12,161,302

NOTE 6 - INTERFUND TRANSACTIONS

Interfund Receivables/Payables (Due To/Due From)

Interfund receivable and payable balances arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed. Interfund receivable and payable balances at June 30, 2017, between major and non-major governmental funds, non-major enterprise funds, internal service funds, and fiduciary funds are as follows:

	Due From			
Due To	General Fund	Adult Education Fund	Non-Major Governmental Funds	Total
General Fund	$ 212,116	$ -	$ 2,616	$ 214,732
Adult Education Fund	142,597	-	-	142,597
Building Fund	-	-	45	45
Non-Major Governmental Funds	-	208,879	3,731	212,610
Total	$ 354,713	$ 208,879	$ 6,392	$ 569,984

Operating Transfers

Interfund transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Interfund transfers for the year ended June 30, 2017, consisted of the following:

	Transfer From				
Transfer To	General Fund	Adult Education Fund	Building Fund	Non-Major Governmental Funds	Total
General Fund	$ -	$ 128,583	$ -	$ -	$ 128,583
Adult Education Fund	288,000	-	-	-	288,000
Building Fund	-	-	-	700,000	700,000
Non-Major Governmental Funds	-	-	166,877	-	166,877
Total	$ 288,000	$ 128,583	$ 166,877	$ 700,000	$ 1,283,460

The Adult Education Fund transferred to the General Fund for repayment of an additional transfer from 2015-16.	$ 288,000
The General Fund transferred to the Adult Education Fund to make a Contribution.	128,583
The County School Facilities Fund transferred to the Building Fund to make a Contribution.	166,479
The Building Fund transferred to the Capital Facilities Fund for repayment of a loan from 2015-16.	700,000
The Building Fund transferred to the Special Reserve Capital Fund for a correction a deposit made during 2016-17.	398
Total	$ 1,283,460

NOTE 7 - ACCOUNTS PAYABLE

Accounts payable at June 30, 2017, consisted of the following:

	General Fund	Adult Education Fund	Building Fund	Non-Major Governmental Funds	Total
Vendor payables	$ 4,165,101	$ 484,192	$ 185,705	$ 13,804	$ 4,848,802
Salaries and benefits	184,723	86,311	-	20,144	291,178
Total	$ 4,349,824	$ 570,503	$ 185,705	$ 33,948	$ 5,139,980

NOTE 8 - LONG-TERM OBLIGATIONS

Summary

The changes in the District's long-term obligations during the year consisted of the following:

	Balance July 1, 2016	Additions	Deductions	Balance June 30, 2017	Due in One Year
General obligation bonds	$ 187,869,723	$ 88,835,000	$ 50,779,924	$ 225,924,799	$ 6,290,720
Bond premiums	4,853,887	10,221,386	536,004	14,539,269	965,586
Certificates of participation	204,658	-	204,658	-	-
Note payable	1,011,094	-	71,020	940,074	82,003
Qualified Zone Academy Bond	5,000,000	-	5,000,000	-	-
Accumulated vacation - net	574,588	45,210	-	619,798	-
Capital leases	889,918	-	83,395	806,523	84,593
Other post employment benefits	628,434	45,910	-	674,344	-
Total	$ 201,032,302	$ 99,147,506	$ 56,675,001	$ 243,504,807	$ 7,422,902

Payments on the general obligation bonds are made by the Bond Interest and Redemption Fund with local revenues. The Capital Facilities Fund makes payments for the Certificates of Participation and the Qualified Zone Academy Lease. The capital leases payments are made by the Adult Education Fund. The accrued vacation and Other Post Employment Benefits will be paid by the fund for which the employee worked.

Bonded Debt

The outstanding general obligation bonded debt is as follows:

Issue Date	Maturity Date	Interest Rate	Original Issue	Bonds Outstanding July 1, 2016	Issued	Redeemed	Bonds Outstanding June 30, 2017
2/21/2007	8/1/2031	4.30%	29,000,000	$ 19,950,000	$ -	$ 19,415,099	$ 534,901
2/21/2007	8/1/2028	4.15%	39,210,000	30,460,000	-	28,475,000	1,985,000
3/18/2009	8/1/2033	4.00-6.25%	30,000,000	1,240,000	-	150,000	1,090,000
2/13/2010	8/1/2040	6.38-6.98%	19,999,043	12,980,063	-	-	12,980,063
5/1/2010	2/1/2026	4.55%	18,327,344	15,894,660	-	1,294,825	14,599,835
5/24/2011	8/1/2041	3.00-5.75%	30,000,000	29,200,000	-	100,000	29,100,000
10/19/2011	8/1/2022	2.00-3.125%	7,560,000	5,015,000	-	685,000	4,330,000

5/2/2017	8/1/2046			-	47,260,000	-	47,260,000
5/2/2017	8/1/2028			-	23,675,000	-	23,675,000
				$ 187,869,723	$ 88,835,000	$ 50,779,924	$ 225,924,799

Debt Service Requirements to Maturity

The bonds mature through August 2043 as follows:

Fiscal Year	Principal	Interest to Maturity	Total
2018	$ 6,290,720	$ 8,501,059	$ 14,791,779
2019	9,663,998	9,215,643	18,879,641
2020	10,619,972	8,845,190	19,465,162
2021	9,943,562	8,414,813	18,358,375
2022	8,320,088	8,012,831	16,332,919
2023-2027	52,901,396	34,982,487	87,883,883
2028-2032	41,210,000	36,776,344	77,986,344
2033-2037	33,916,510	33,898,597	67,815,107
2038-2042	37,383,553	32,219,513	69,603,066
2043	15,675,000	2,040,672	17,715,672
Total	225,924,799	$ 182,907,149	$ 408,831,948

Certificates of Participation

In February 1997, the District issued certificates of participation in the amount of $2,670,000 with interest rates of 4.5 percent. The District has paid off this debt as of June 30, 2017.

Notes Payable

On February 26, 2013, the City of San Leandro loaned the District $1,250,000 with interest rates of 1.5-5% for the purchase of a property in the City that will be used by the District to directly support education and administrative functions of the District. The loan matures on August 1, 2028. The principal and interest payments are as follows:

Fiscal Year	Principal	Interest to Maturity	Total
2018	$ 82,003	$ 28,202	$ 110,205
2019	84,463	25,742	110,205
2020	86,997	23,208	110,205
2021	89,607	20,598	110,205
2022	92,295	17,910	110,205
2022-2026	370,828	65,586	436,414
2027-2029	133,881	10,123	144,004
Total	$ 940,074	$ 191,369	$ 1,131,443

Accumulated Unpaid Employee Vacation

The long-term portion of accumulated unpaid employee vacation for the District at June 30, 2017, amounted to $619,798.

Qualified Zone Academy Bond

In June 2014, the District issued $5,000,000 Taxable Qualified Zone Academy Bond with a coupon rate of 2.17%. The District has paid off this debt as of June 30, 2017.

Capital Leases

The District has entered into agreements to lease various facilities and equipment. Such agreements are, in substance, purchases (capital leases) and are reported as capital lease obligations. The District's liability on lease agreements with options to purchase is summarized below:

	Adult Education Zion Bank
Balance, July 1, 2016	$ 889,918
Additions	-
Payments	83,395
Balance, June 30, 2017	$ 806,523

The capital leases have minimum lease payments as follows:

Year Ending June 30,	Lease Payment
2018	$ 95,824
2019	95,824
2020	95,824
2021	95,824
2022	95,824
2023-2028	383,292
Total	862,412
Less: Amount Representing Interest	55,889
Present Value of Minimum Lease Payments	$ 806,523

Leased land, buildings, and equipment under capital leases in capital assets at June 30, 2017, include the following:

Buildings	$ 1,530,197
Less: Accumulated depreciation	186,174
Total	$ 1,716,371

Amortization of leased buildings and equipment under capital assets is included with depreciation expense.

Other Postemployment Benefits (OPEB) Obligation

The District's annual required contribution for the year ended June 30, 2017, was $646,349, and contributions made by the District during the year were $631,861. Interest on the net OPEB obligation to the annual required contribution was $31,422, which resulted in an increase to the net OPEB obligation of $45,910. As of June 30, 2017, the net OPEB obligation was $674,344. See Note 10 for additional information regarding the OPEB obligation and the postemployment benefits plan.

Deferred Charges on Refunding

Deferred outflows of resources are a consumption of net position by the District that is applicable to a future reporting period. For governmental activities, the net investment in capital assets amount of $19,524,595 includes the effect of deferring the recognition of loss of $742,067 from advance refunding. The loss will be recognized as an expense and as a decrease in net position over the remaining life of related bonds.

NOTE 9 - FUND BALANCES

Fund balances are composed of the following elements:

	General Fund	Adult Education Fund	Building Fund	Bond Interest and Redemption Fund	Non-Major Governmental Funds	Total
Nonspendable						
Revolving cash	$ 40,000	$ -	$ -	$ -	$ -	$ 40,000

NOTE 10 - POSTEMPLOYMENT HEALTH CARE PLAN AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) OBLIGATION

Plan Description

The Postemployment Benefits Plan (the "Plan") is a single-employer defined benefit healthcare plan administered by the San Leandro Unified School District. The Plan provides medical and dental insurance benefits to eligible retirees and their spouses. Membership of the Plan consists of 159 retirees and beneficiaries currently receiving benefits, and 22 active plan members.

Contribution Information

The contribution requirements of plan members and the District are established and may be amended by the District and the Teachers Association (CTA), the local California Service Employees Association (CSEA), and unrepresented groups. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually through the agreements between the District, CTA, CSEA and the unrepresented groups. For fiscal year 2016-2017, the District contributed $631,861 to the plan, all of which was used for current premiums.

Annual OPEB Cost and Net OPEB Obligation

The District's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial accrued liabilities (UAAL) (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation to the Plan:

Annual required contribution	$ 646,349
Interest on net OPEB obligation	31,422
Annual OPEB cost (expense)	677,771
Contributions made	(631,861)
Increase in net OPEB obligation	45,910
Net OPEB obligation, beginning of year	628,434
Net OPEB obligation, end of year	$ 674,344

Trend Information

Trend information for annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation is as follows:

Year Ended June 30,	Annual OPEB Cost	Actual Contribution	Percentage Contributed	Net OPEB Obligation
2017	$ 677,771	$ 631,861	93.2%	$ 674,344

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2015, actuarial valuation, the projected unit credit method was used. The actuarial assumptions included a five percent investment rate of return (net of administrative expenses), based on the plan being funded in an irrevocable employee benefit trust invested in a combined equity and fixed income portfolio. Healthcare cost trend rates ranged from an initial seven percent to an ultimate rate of three percent. The UAAL is being amortized at a level dollar method. The remaining amortization period at July 1, 2015, was 15 years. The actuarial value of assets was not determined in this actuarial valuation.

NOTE 11 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters.

Property and Liability

During fiscal year ending June 30, 2017, the District contracted with East Bay Schools Insurance Group (EBSIG) insurance purchasing pools for property and liability coverage and SAFER for excess liability coverage. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

Workers' Compensation

The District participates in the Alameda County Schools Insurance Group (ACSIG), an insurance purchasing pool. The intent of the ACSIG is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the ACSIG. The workers' compensation experience of the participating districts is calculated as one experience and a common premium rate is applied to all districts in the ACSIG. Each participant pays its workers ' compensation premium based on its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of each participated school districts. A participant will then either receive money from or be required to contribute to the "equity-pooling fund." This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the ACSIG.

Coverage provided by EBSIG, SAFER, and ACSIG for property and liability and workers' compensation is as follows:

Insurance Program / Company Name	Type of Coverage	Limits
East Bay Schools Insurance Group	Liability	$ 5,000,000
	Excess Liability	$ 20,000,000
	Property	$ 250,000,000
Alameda Schools Insurance Group	Workers' Compensation	State Statutory Limits

NOTE 12 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Academic employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

For the fiscal year ended June 30, 2017, the District reported net pension liabilities, deferred outflows of resources, deferred inflows of resources, and pension expense for each of the above plans as follows:

Pension Plan	Collective Net Pension Liability	Collective Deferred Outflows of Resources	Collective Deferred Inflows of Resources	Collective Pension Expense
CalSTRS	$ 73,767,453	$ 13,552,793	$ 4,793,178	$ 6,915,118
CalPERS	21,379,819	6,238,005	798,266	2,706,375
Total	$ 95,147,272	$ 19,790,798	$ 5,591,444	$ 9,621,493

The details of each plan are as follows:

California State Teachers' Retirement System (CalSTRS)

Plan Description

The District contributes to the State Teachers Retirement Plan (STRP) administered by the California State Teachers' Retirement System (CalSTRS). STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2015, annual actuarial valuation report, Defined Benefit Program Actuarial Valuation. This report and CalSTRS audited financial information are publically available reports that can be found on the CalSTRS website under Publications at:
http://www.calstrs.com/member-publications.

Benefits Provided

The STRP provides retirement, disability and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service.

The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the state is the sponsor of the STRP and obligor of the trust. In addition, the state is both an employer and nonemployer contributing entity to the STRP.

The District contributes exclusively to the STRP Defined Benefit Program, thus disclosures are not included for the other plans.

The STRP provisions and benefits in effect at June 30, 2017, are summarized as follows:

	STRP Defined Benefit Program	
	On or before	On or after
Hire date	December 31, 2012	January 1, 2013
Benefit formula	2% at 60	2% at 62
Benefit vesting schedule	5 years of service	5 years of service
Benefit payments	Monthly for life	Monthly for life
Retirement age	60	62
Monthly benefits as a percentage of eligible compensation	2.0% - 2.4%	2.0% - 2.4%
Required employee contribution rate	10.25%	9.21%
Required employer contribution rate	12.58%	12.58%
Required state contribution rate	8.828%	8.828%

Contributions

Required member, District and State of California contributions rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. The contributions rates are expressed as a level percentage of payroll using the entry age normal actuarial method. In accordance with AB 1469, employer contributions into the CalSTRS will be increasing to a total of 19.1 percent of applicable member earnings phased over a seven-year period. The contribution rates for each plan for the year ended June 30, 2017, are presented above and the District's total contributions were $5,989,418.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the District were as follows:

Total net pension liability, including State share:

District's proportionate share of net pension liability	$	73,767,453
State's proportionate share of the net pension liability associated with the District		41,994,495
Total	$	115,761,948

The net pension liability was measured as of June 30, 2016. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. The District's proportionate share for the measurement period June 30, 2016 and June 30, 2015, respectively was 0.0912 percent and 0.0959 percent, resulting in a net decrease in the proportionate share of 0.0038 percent.

For the year ended June 30, 2017, the District recognized pension expense of $6,915,118. In addition, the District recognized pension expense and revenue of $2,788,266 for support provided by the State. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Pension contributions subsequent to measurement date	$	5,989,418	$	-
Net change in proportionate share of net pension liability		1,698,898		2,993,705
Difference between projected and actual earnings on pension plan investments		5,864,477		-
Differences between expected and actual experience in the measurement of the total pension liability		-		1,799,473
Total	$	13,552,793	$	4,793,178

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows/(Inflows) of Resources
2018	$ 127,943
2019	127,943
2020	3,409,041
2021	2,199,550
Total	$ 5,864,477

The deferred outflows/(inflows) of resources related to the net change in proportionate share of net pension liability and differences between expected and actual experience in the measurement of the total pension liability will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 7 years and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows/(Inflows) of Resources
2018	$ 487,585
2019	487,585
2020	487,585
2021	487,585
2022	487,585
Thereafter	656,352
Total	$ 3,094,277

Actuarial Methods and Assumptions

Total pension liability for STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2015, and rolling forward the total pension liability to June 30, 2016. The financial reporting actuarial valuation as of June 30, 2015, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2015
Measurement date	June 30, 2016
Experience study	July 1, 2006 through June 30, 2010
Actuarial cost method	Entry age normal
Discount rate	7.60%
Investment rate of return	7.60%
Consumer price inflation	3.00%
Wage growth	3.75%

CalSTRS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are based on RP2000 series tables adjusted to fit CalSTRS experience.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant. Based on the model for CalSTRS consulting actuary's investment practice, a best estimate range was determined by assuming the portfolio is re-balanced annually and that the annual returns are lognormally distributed and independent from year to year to develop expected percentiles for the long-term distribution of annualized returns. The assumed asset allocation is based on Teachers' Retirement Board of the California State Teachers' Retirement System (board) policy for target asset allocation in effect on February 2, 2012, the date the current experience study was approved by the board. Best estimates of 10-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-term Expected Real Rate of Return
Global equity	47%	6.30%
Fixed income	12%	0.30%
Real estate	13%	5.20%
Private equity	13%	9.30%
Absolute Return/Risk Mitigating Strategies	9%	2.90%
Inflation sensitive	4%	3.80%
Cash/liquidity	2%	-1.00%

Discount Rate

The discount rate used to measure the total pension liability was 7.60 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.60 percent) and assuming that contributions, benefit payments and administrative expense occurred midyear. Based on these assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate		Net Pension Liability
1% decrease (6.60%)	$	106,168,002
Current discount rate (7.60%)	$	73,767,453
1% increase (8.60%)	$	46,858,353

California Public Employees Retirement System (CalPERS)

Plan Description

Qualified employees are eligible to participate in the School Employer Pool (SEP) under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2015 annual actuarial valuation report, Schools Pool Actuarial Valuation. This report and CalPERS audited financial information are publically available reports that can be found on the CalPERS website under Forms and Publications at:
https://www.calpers.ca.gov/page/forms-publications.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after five years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or 52 for members hired on or after January 1, 2013), and has at least five years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The CalPERS provisions and benefits in effect at June 30, 2017, are summarized as follows:

	School Employer Pool (CalPERS)	
	On or before	On or after
Hire date	December 31, 2012	January 1, 2013
Benefit formula	2% at 55	2% at 62
Benefit vesting schedule	5 years of service	5 years of service
Benefit payments	Monthly for life	Monthly for life
Retirement age	55	62
Monthly benefits as a percentage of eligible compensation	1.1% - 2.5%	1.0% - 2.5%
Required employee contribution rate	7.000%	6.000%
Required employer contribution rate	13.888%	13.888%

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Total plan contributions are calculated through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contributions rates are expressed as percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2017, are presented above and the total District contributions were $1,861,098.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of June 30, 2017, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling $21,379,819. The net pension liability was measured as of June 30, 2016. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. The District's proportionate share for the measurement period June 30, 2016 and June 30, 2015, respectively was 0.1083 percent and 0.1070 percent, resulting in a net increase in the proportionate share of 0.0013 percent.

For the year ended June 30, 2017, the District recognized pension expense of $2,706,375. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	$ 1,861,098	$ -
Net change in proportionate share of net pension liability	139,910	155,930
Difference between projected and actual earnings on pension plan investments	3,317,460	-
Differences between expected and actual experience in the measurement of the total pension liability	919,537	-
Changes of assumptions	-	642,336
Total	$ 6,238,005	$ 798,266

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows/(Inflows) of Resources
2018	$ 465,318
2019	465,318
2020	1,520,996
2021	865,828
Total	$ 3,317,460

The deferred outflows/(inflows) of resources related to the net change in proportionate share of net pension liability, changes of assumptions, and differences between expected and actual experience in the measurement of the total pension liability will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 3.9 years and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows/(Inflows) of Resources
2018	$ 53,620
2019	64,190
2020	143,371
Total	$ 261,181

Actuarial Methods and Assumptions

Total pension liability for the SEP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2015, and rolling forward the total pension liability to June 30, 2016. The financial reporting actuarial valuation as of June 30, 2015, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2015
Measurement date	June 30, 2016
Experience study	July 1, 1997 through June 30, 2011
Actuarial cost method	Entry age normal
Discount rate	7.65%
Investment rate of return	7.65%
Consumer price inflation	2.75%
Wage growth	Varies by entry age

Mortality assumptions are based on mortality rates resulting from the most recent CalPERS experience study adopted by the CalPERS Board. For purposes of the post-retirement mortality rates, those revised rates include five years of projected ongoing mortality improvement using Scale AA published by the Society of Actuaries.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first ten years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-term Expected Real Rate of Return
Global equity	51%	5.71%
Global debt securities	20%	2.43%
Inflation assets	6%	3.36%
Private equity	10%	6.95%
Real estate	10%	5.13%
Infrastructure and Forestland	2%	5.09%
Liquidity	1%	-1.05%

Discount Rate

The discount rate used to measure the total pension liability was 7.65 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Based on these assumptions, the School Employer Pool fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount rate		Net Pension Liability
1% decrease (6.65%)	$	31,898,809
Current discount rate (7.65%)	$	21,379,819
1% increase (8.65%)	$	12,620,690

Social Security and Tax Deferred Annuity Plan

As established by Federal law, all public sector employees who are not members of their employer's existing retirement system (CalSTRS or CalPERS) must be covered by Social Security or an alternative plan. The District has elected to use the Social Security as its alternative plan. The District contributes the required percent of an employee's gross earnings. The employee is also required to contribute based on the applicable percentage of his or her gross earnings to the pension plan.

The San Leandro District 403(b) Tax Deferred Annuity Plan (TDA) is a defined contribution pension plan. A defined contribution pension plan provides pension benefits in return for services rendered, provides an individual account for each participant, and specifies how contributions to the individual's account are to be determined instead of specifying the amount of benefits the individual is to receive. Under a defined contribution pension plan, the benefits a participant will receive depend solely on the amount contributed to the participant's account, the returns earned on investments of those contributions, and forfeitures of other participants' benefits that may be allocated to such participant's account. Employees may elect to participate and have voluntary withholding amounts deducted from their payroll.

On Behalf Payments

The State of California makes contributions to CalSTRS on behalf of the District. These payments consist of State General Fund contributions to CalSTRS in the amount of $2,788,266 (8.828 percent of annual payroll). Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures. Accordingly, these amounts have been recorded in these financial statements. On behalf payments have been excluded from the calculation of available reserves, and have been included in the budget amounts reported in the *General Fund - Budgetary Comparison Schedule*.

NOTE 13 - COMMITMENTS AND CONTINGENCIES

Grants

The District received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2017.

Litigation

The District is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2017.

Construction Commitments

As of June 30, 2017, the District had the following commitments with respect to the unfinished capital projects:

Capital Project	Remaining Construction Commitment	Expected Date of Completion
HVAC at McKinley	$ 800,000	September-17

NOTE 14 - PARTICIPATION IN PUBLIC ENTITY RISK POOLS, JOINT POWERS AUTHORITIES AND OTHER RELATED PARTY TRANSACTIONS

The District is a member of the East Bay Schools Insurance Group and Alameda County Schools Insurance Group public entity risk pools and the Eden Area Regional Occupational Program and the School Project for Utility Rate Reduction joint powers authorities (JPA's). The District pays an annual premium to the applicable entity for its workers' compensation, and property liability coverage. Payments for regional occupational programs and utilities are paid to the JPAs. The relationships between the District, the pools, and the JPA's are such that they are not component units of the District for financial reporting purposes.

These entities have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entities and the District are included in these statements. Audited financial statements are generally available from the respective entities.

During the year ended June 30, 2017, the District made payments of $705,565 to East Bay Schools Insurance Group, $2,139,975 to Alameda County Schools Insurance Group, $174,171 to School Project for Utility Rate public entity risk pool, and $964,308 to the Eden Area Regional Occupational Program for occupational programs.

SAN LEANDRO UNIFIED SCHOOL DISTRICT

NOTE TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED JUNE 30, 2017

NOTE 1 - PURPOSE OF SCHEDULES

Budgetary Comparison Schedule

This schedule presents information for the original and final budgets and actual results of operations, as well as the variances from the final budget to actual results of operations.

Schedule of Other Postemployment Benefits (OPEB) Funding Progress

This schedule is intended to show trends about the funding progress of the District's actuarially determined liability for postemployment benefits other than pensions.

Schedule of the District's Proportionate Share of the Net Pension Liability

This schedule presents information on the District's proportionate share of the net pension liability (NPL), the plans' fiduciary net position and, when applicable, the State's proportionate share of the NPL associated with the District. In the future, as data becomes available, ten years of information will be presented.

Changes in Benefit Terms - There were no changes in benefit terms since the previous valuation for either CalSTRS and CalPERS.

Changes in Assumptions - There were no changes in economic assumptions for either the CalSTRS or CalPERS plans from the previous valuation.

Schedule of District Contributions

This schedule presents information on the District's required contribution, the amounts actually contributed, and any excess or deficiency related to the required contribution. In the future, as data becomes available, ten years of information will be presented.

LONG-TERM OBLIGATIONS	$ 236,081,905	$ 243,504,807	$ 201,032,302	$ 207,365,556
K-12 AVERAGE DAILY ATTENDANCE AT P-2	8,240	8,240	8,166	8,183

The General Fund restricted and unrestricted balance has increased by $1,705,443 over the past two years. The fiscal year 2017-2018 budget projects a combined increase of $1,261,403 (19.2 percent). For a district this size, the State recommends available unrestricted reserves of at least three percent of total General Fund expenditures, transfers out, and other uses (total outgo).

The District has incurred operating deficits in one of the last three years and anticipates incurring an operating surplus during the 2017-2018 fiscal year. Total long-term obligations have increased by $36,139,251 over the past two years.

Average daily attendance has increased by 57 ADA over the past two years. No change to ADA is anticipated during fiscal year 2017-2018.

[1] Budget 2018 is included for analytical purposes only and has not been subjected to audit.

[2] Available reserves consist of all unassigned fund balances including all amounts reserved for economic uncertainties contained with the General Fund.

See accompanying note to supplementary information.

SAN LEANDRO UNIFIED SCHOOL DISTRICT

NOTE TO SUPPLEMENTARY INFORMATION
JUNE 30, 2017

NOTE 1 - PURPOSE OF SCHEDULES

Schedule of Expenditures of Federal Awards

The accompanying Schedule of Expenditures of Federal Awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements. The District has not elected to use the ten percent de minimis cost rate as covered in Section 200.414 Indirect (F&A) costs of the Uniform Guidance.

The following schedule provides reconciliation between revenues reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances, and the related expenditures reported on the Schedule of Expenditures of Federal Awards.

Description	CFDA Number	Amount
Total Federal Revenues From the Statement of Revenues, Expenditures and Changes in Fund Balances:		$ 8,474,095
Commodities	10.550	120,433
Total Schedule of Expenditures of Federal Awards		$ 8,594,528

Local Education Agency Organization Structure

This schedule provides information about the District's boundaries and schools operated, members of the governing board, and members of the administration.

Schedule of Average Daily Attendance (ADA)

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. The District neither met nor exceeded its target funding. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of *Education Code* Sections 46200 through 46206.

Districts must maintain their instructional minutes at the 1986-87 requirements, as required by *Education Code* Section 46201.

SAN LEANDRO UNIFIED SCHOOL DISTRICT

NOTE TO SUPPLEMENTARY INFORMATION
JUNE 30, 2017

Reconciliation of Annual Financial and Budget Report With Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Unaudited Actual Financial Report to the audited financial statements.

Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

Non-Major Governmental Funds - Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances

The Non-Major Governmental Funds Combining Balance Sheet and Combining Statement of Revenues, Expenditures and Changes in Fund Balances is included to provide information regarding the individual funds that have been included in the Non-Major Governmental Funds column on the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances.

INDEPENDENT AUDITOR'S REPORTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Governing Board
San Leandro Unified School District
San Leandro, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of San Leandro Unified School District (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise San Leandro Unified School District's basic financial statements, and have issued our report thereon dated October 27, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered San Leandro Unified School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of San Leandro Unified School District's internal control. Accordingly, we do not express an opinion on the effectiveness of San Leandro Unified School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

5000 Hopyard Road, Suite 335 Pleasanton, CA 94588 Tel: 925.734.6600 www.vtdcpa.com Fax: 925.734.6611

Compliance and Other Matters

As part of obtaining reasonable assurance about whether San Leandro Unified School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of San Leandro Unified School District in a separate letter dated October 27, 2017.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Vavrinek, Trine, Day & Co., LLP

Pleasanton, California
October 27, 2017

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Governing Board
San Leandro Unified School District
San Leandro, California

Report on Compliance for Each Major Federal Program

We have audited San Leandro Unified School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of San Leandro Unified School District's (the District) major Federal programs for the year ended June 30, 2017. San Leandro Unified School District's major Federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its Federal awards applicable to its Federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of San Leandro Unified School District's major Federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about San Leandro Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major Federal program. However, our audit does not provide a legal determination of San Leandro Unified School District's compliance.

Opinion on Each Major Federal Program

In our opinion, San Leandro Unified School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2017.

5000 Hopyard Road, Suite 335 Pleasanton, CA 94588 Tel: 925.734.6600 www.vtdcpa.com Fax: 925.734.6611

Report on Internal Control Over Compliance

Management of San Leandro Unified School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered San Leandro Unified School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major Federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major Federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of San Leandro Unified School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

Governing Board
San Leandro Unified School District
San Leandro, California

Report on State Compliance

We have audited San Leandro Unified School District's compliance with the types of compliance requirements as identified in the *2016-2017 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* that could have a direct and material effect on each of the *San Leandro Unified School District*'s State government programs as noted below for the year ended June 30, 2017.

Management's Responsibility

Management is responsible for compliance with the requirements of State laws, regulations, and the terms and conditions of its State awards applicable to its State programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance of each of the San Leandro Unified School District's State programs based on our audit of the types of compliance requirements referred to above. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *2016-2017 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. These standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on the applicable government programs noted below. An audit includes examining, on a test basis, evidence about San Leandro Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions. Our audit does not provide a legal determination of San Leandro Unified School District's compliance with those requirements.

5000 Hopyard Road, Suite 335 Pleasanton, CA 94588 Tel: 925.734.6600 www.vtdcpa.com Fax: 925.734.6611

Unmodified Opinion

In our opinion, San Leandro Unified School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the government programs noted below that were audited for the year ended June 30, 2017.

In connection with the audit referred to above, we selected and tested transactions and records to determine the San Leandro Unified School District's compliance with the State laws and regulations applicable to the following items:

	Procedures Performed
LOCAL EDUCATION AGENCIES OTHER THAN CHARTER SCHOOLS	
Attendance	Yes
Teacher Certification and Misassignments	Yes
Kindergarten Continuance	Yes (see below)

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

SAN LEANDRO UNIFIED SCHOOL DISTRICT

SUMMARY OF AUDITOR'S RESULTS
FOR THE YEAR ENDED JUNE 30, 2017

FINANCIAL STATEMENTS

Type of auditor's report issued:	Unmodified
Internal control over financial reporting:	
Material weakness identified?	No
Significant deficiency identified?	None reported
Noncompliance material to financial statements noted?	No

FEDERAL AWARDS

Internal control over major Federal programs:	
Material weakness identified?	No
Significant deficiency identified?	None reported
Type of auditor's report issued on compliance for major Federal programs:	Unmodified
Any audit findings disclosed that are required to be reported in accordance with Section 200.516(a) of the Uniform Guidance?	No

Identification of major Federal programs:

CFDA Number(s)	Name of Federal Program or Cluster
84.010	Title I, Part A Basic Grants Low-Income and Neglected
84.027, 84.173, 84.027A	Special Education Cluster

Dollar threshold used to distinguish between Type A and Type B programs:	$ 750,000
Auditee qualified as low-risk auditee?	Yes

STATE AWARDS

Type of auditor's report issued on compliance for programs:	Unmodified

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FOR THE YEAR ENDED JUNE 30, 2017

Except as specified in previous sections of this report, summarized below is the current status of all audit findings reported in the prior year's schedule of financial statement findings.

Five Digit Code	AB 3627 Finding Type
30000	Internal Control
60000	Miscellaneous

2016-001 Associated Student Body Activities (ASB) and Site Cash Internal Controls (30000)

Criteria or Specific Requirements
Education Code Section 48930 (and California Department of Education's "Accounting Procedures for Student Organizations Handbook") requires student body organizations to follow the regulations set by the Governing Board of the School District. Internal Control best practices over processing of cash receipts include maintaining a separate record of funds received.

Condition
Wilson Elementary School
Site Cash – We noted the following:
- Two of the Cash Verification Forms used for cash collections were not properly footed.
- A cash collection was deposited two months after it was collected.
- Cash Verification Forms were not always show evidence of the initial of the individual verified the cash.

Bancroft Middle School
ASB – We noted the following:
- No pre-numbered receipts or receipt log was used to document cash collections. The School does record cash collections in Quickbooks, however, these collections were recorded after funds are deposited.
- Disbursements did not always have supporting documents such as invoices or receipts attached. We noted approximately $1,070 in disbursements that were not supported.
- Receiving documents for goods purchased were not always maintained. We noted approximately $14,000 in uniform purchase did not have receiving documents ensuring goods were received as ordered.
- The Site uses Quicken to perform bank reconciliations, however, the reconciled bank balances were not reconciled with the register or book balance. We reviewed the October 2015 bank reconciliation and noted approximately $4,200 difference between the bank reconciled balance and the register/book balance.

San Leandro High School
Site Cash
- Library Funds: no documentation maintained for the petty cash box located in the Library for cash collections or cash disbursements. Petty cash box was not properly locked up.
- Cafeteria Funds: There was $700 excess funds kept in the cafeteria safe that were not tracked or documented for the sources or uses of the this fund.

ASB

- Receiving documents for goods purchased were not always maintained. We noted approximately $23,250 in purchases that did not have receiving documents to ensure goods were received as ordered.
- No evidence of expenditures being approved in the student council meeting minutes.
- Three check requests did not have the authorized student body approval prior to the disbursements made.
- One disbursement in the amount of $239.57 appears to be for textbook purchases which should not have been paid out of the ASB funds. This disbursement did not have evidence of the student body authorization.

Questioned costs
None.

Context
We reviewed ASB and site cash transactions at Wilson Elementary, Bancroft Middle School, and San Leandro High School and noted the above.

Effect
The risk of potential error or misappropriation of funds is increased when internal controls are not properly designed and implemented.

Cause
Internal controls over ASB and site cash have not been optimized.

Recommendation
Controls over cash collections and disbursements should be strengthened to mitigate opportunities for misappropriation of funds. The District should provide additional trainings to individuals involved in the ASB and site cash transactions and monitor these activities to ensure controls are properly designed and implemented. ASB events and disbursements should be discussed and approved by the student council and such approval should be documented in the student council minutes. Cash collections should be documented at the time of collection and the documentation should include the date, amount, and source of the collection. There should also be document showing the date and amount that the collections were deposited. This would help ensuring that the funds collected are deposited intact and timely.

Corrective Action Plan
The District will strengthen controls over cash collection, cash handling, purchasing, and appropriate uses of ASB funds. Deposits will be made timely and duties of those involved will be reviewed to ensure optimal segregation of duties. In addition, central office staff will provide periodic site visits to review student body process and activities to strengthen controls. Site office managers and ASB staffs will be encouraged to attend ASB workshops and trainings.

Current Status
Implemented.

SAN LEANDRO UNIFIED SCHOOL DISTRICT

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FOR THE YEAR ENDED JUNE 30, 2017

2016-002 Unduplicated Local Control Funding Formula Pupil Counts (40000)

Criteria or Specific Requirements
7 CFR 225.15(c)
Records and claims. (1) Sponsors shall maintain accurate records which justify all costs and meals claimed. Failure to maintain such records may be grounds for denial of reimbursement for meals served and/or administrative costs claimed during the period covered by the records in question. The sponsor's records shall be available at all times for inspection and audit by representatives of the Secretary, the Comptroller General of the United States, and the State agency for a period of three years following the date of submission of the final claim for reimbursement for the fiscal year.

7 CFR 225.15(f)
Application for free Program meals. (1) Purpose of application form. The application is used to determine the eligibility of children attending camps and the eligibility of sites that are not open sites.

Condition
During the test, we noted that the status indicated in the supporting documents for seven students were not consistent with the status reported on the certified "1.18-FRPM/PM/English Learner/Foster Youth - Student List". After the finding, 100 percent FRPM/PM/English Learner/Foster Youth students were examined and noted a total of 241 should not have been reported.

Questioned Costs
Supplemental grant: $253,360; Concentration grant: $119,000.

Context
We reviewed 60 student files.

Effect
District is not in compliance with Unduplicated Local Control Funding Formula Pupil Counts requirement.

Cause
Due to a procedural misunderstanding, the district did not correctly report Free and Reduced Prime Meal data and did not reconcile Food Service data with our AERIES System Data. In other words, the District did not use the data from Nutri-Kids-System (on the Food Service Side) to update AERIES on the Instruction Technology side which, in turn, feeds into the CALPADS State system.

Recommendation
District should implement procedures necessary to ensure unduplicated student counts are accurately reported.

Corrective Action Plan
The District will ensure that the submission of CBEDS and Unduplicated Count data is reflective of the most up-to-date data for students that are in the Free and Reduced Lunch status. Data will be reviewed and reconciled by multiple departments to ensure accuracy.

Current Status
Implemented.

SAN LEANDRO UNIFIED SCHOOL DISTRICT

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FOR THE YEAR ENDED JUNE 30, 2017

2016-003 After School Education and Safety Program (40000)

Criteria or Specific Requirements
Title 5, California Code of Regulations, Section 19846(a)(2) states: Select a representative sample of schools for each program type, as that term is used in the attendance report, for which data was reported to the California Department of Education for the after school base grant program. Determine whether the reported number of student services, as that term is used in the report, for each selected school is supported by written records that document pupil participation, by tracing the reported numbers through any documentation used to summarize the numbers of students services, to written data origination documentation.

Condition
We noted 9 instances where sign in sheets noted absent but credit was claimed.

Questioned Costs
None.

Context
The condition identified was determined through review of the Sign-In sheet from one of the eight sites that operate an after school program.

Effect
Reported ASES attendance is not accurate.

Cause
Staff failed to follow procedures for after school attendance reporting, including follow-up on missing sign-in and sign-out data.

Recommendation
The District should established procedures to ensure proper documentation for students attending the ASES program is properly maintained. Semi-annual attendance reports should be reviewed to ensure the information reported is accurate based on the attendance records.

Corrective Action Plan
Staff will review program requirements and check all attendance logs for completeness and accuracy.

Current Status
Implemented.
