Dremel 3D40 EDU

The Dremel 3D40 Idea Builder is the next generation Idea Builder that continues the Dremel heritage of reliability and ease-of-use while bringing the convenience of Wi-Fi connectivity and mobile interaction to the world of 3D building. Easy-to-use right out of the box, the 3D40 Idea Builder features built-in printable files so you can start building immediately. An advanced extruder design features an active filament monitoring system to ensure successful builds and the exclusive, Quik Level guided levelling system makes set-up a snap. The 3D40HD allows you to build bigger projects inside the fully enclosed, illuminated workspace with a cooling system that prevents object warping and keeps your builds precise. EDU version includes 3 rolls filament and USB flash drive pre-loaded with 10 print-ready curriculum based model files.
