Night Out in the Neighborhood

Firefighters Steve Hickey and Brian Centoni chatted with Greta Velazquez and Shirley Beal at the Floresta neighborhood National Night Out party at Floresta Park on Tuesday evening. Across town and all over the country, neighborhoods held the National Night Out get-togethers to meet neighbors and first-responders.

Ballots Sent Out For School Parcel Tax

By Amy Sylvestri
San Leandro Times

The ballots have been sent out for the special mail-in election for a parcel tax that the San Leandro School District is asking voters to pass.

The parcel tax, Measure B, would double the cost and extend the life of a current parcel tax on homeowners in the district.

As proposed, Measure B would be assessed at $78 annually per parcel for a period of 14 years, which would bring in a total of about $1.5 million annually to the district beginning in the 2018-2019 school year.

The original parcel tax was passed narrowly by 66.75 percent of voters back in 2012 (a two-thirds majority was needed) and assessed at $39 per parcel annually. That tax is set to end in 2018. The new measure, if passed, would extend its life another 14 years.

Larry Tramutola, the consultant the district hired to help pass the tax, said that seniors over the age of 65 are more likely to vote in mail-in elections. Seniors are also eligible to be exempted from paying the tax, so they could vote it in and not have to pay.

Because the new tax would be an extension and not an entirely new tax, senior citizens who have applied for a previous exemption from paying the tax will still be exempt if it passes.

Kevin Collins, assistant superintendent for the school district, said the district made sure that the exemptions could be rolled over in order to make things more convenient for seniors.

Seniors who have not yet filed for an exemption may do so, but the property tax rolls for

County Supes Vote For More Pot Shops

By Amy Sylvestri
San Leandro Times

The Alameda Board of Supervisors voted Tuesday to allow up to five medical marijuana dispensaries in the unincorporated areas of the county – one more in the western part of the county to join the two that are already open in Ashland and Cherryland, and two in the eastern part of the county.

By a 4-0 vote with Supervisor Keith Carson absent, the Board of Supervisors changed an existing ordinance in order to allow the additional dispensaries, as well as the sale of edible marijuana products and deliveries of marijuana by licensed stores.

The ordinance also allows for up to six permits for cultivation

Water Pollution Control Plant to Go Solar

By Amy Sylvestri
San Leandro Times

The City of San Leandro has received the largest grant award given out by the California Energy Commission this year, which will fund energy efficiency projects at the Water Pollution Control Plant.

The Californian Energy Commission gave San Leandro $2 million in grant funding to build a 1-megawatt solar power system at the plant, located at 3000 Davis Street.

The grant will also help pay for the installation of six new automation system and LED lighting at the plant.

The Water Pollution Control Plant's enterprise fund will provide matching funding for a total of nearly $4 million in "green" upgrades, according to Debbie Pollart, the city's Public Works director.

see SOLAR, page 16

The City of San Leandro's water pollution control plant, a big power user, will be able to get a good part of its electricity from solar power in the future.
