Re: 1st Generation Chromebook Refresh Purchase

Background:

We are approaching the replacement deadline for our 1st generation Chromebook fleet that was initially deployed in 2014. We have started the refresh process this school year, but still have a ways to go. The purpose of this request is to approve the purchase of 3,000 additional chromebooks and some carts.

Description:

Obtain approval to spend up to $1,121,780.25 for additional chromebooks and multipurpose storage carts for our 1st generation chromebook refresh project. The vendor will be Sterling, with funding coming from Measure J1 Bond Funds. As in the past, will use the NASPO Piggyback contract as our procurement method. Upon approval, this item will be sent for Board approval at the April 9, 2019, SLUSD Board Meeting.
