The Power of Measuring Results

- **If you do not measure results, you cannot tell success from failure.**
- **If you cannot see success, you cannot reward it.**
- **If you cannot reward success, you are probably rewarding failure.**
- **If you cannot see success, you cannot learn from it.**
- **If you cannot recognize failure, you cannot correct it.**
- **If you can demonstrate results, you can win public support.**

Administrator Data Workbook

Looking Closely at Our STAR 2011 Data

August 16, 2011

Prepared & Presented by: Daniel Chaja,
Assistant Director of Research and Program Evaluation

Looking Closely at Our School Data

Expected Outcomes for this Workbook:

- Understand your academic achievement data
- Reflect on your instructional practices and programs
- Improve your strategies for increased learning
- Develop your next Steps

Preparing to Look at Your Data

1. Before looking at your school data, complete the top 2 quadrants below. (3 min.)
2. Discuss your responses to these two quadrants with a colleague. (3 min.)
3. After examining your data, complete the bottom 2 quadrants below. (3 min.)
4. Discuss your responses to the bottom two quadrants with a colleague. (3 min.)

My 2010-11 Goals: What were your goals for last year?	**My 2010-11 Prediction:** Where do you expect to see growth or loss?
My 2010-11 Achievement: List your STAR 2011 CST gains and/or losses.	**My 2010-11 Reflection:** List your biggest contributing factors to your gains and/or losses.

Preparing to Look at Your Data

Before looking at your school data, briefly answer each of the questions below. (5 min.)
Afterwards, discuss your responses to one of the three areas below with a colleague. (2 min.)

1. What were your goals for last year?

a. Academic achievement goals?

b. School climate/culture goals?

2. Where do you expect to show the greatest academic gains for 2010-11? Is this a grade-level, content area, or student subgroup? Why do you expect to show your greatest gains in this area?

a. Largest increase in percent proficient:

b. Largest decrease in percent of students scoring BB & FBB?
(If using AYP data, largest decrease in percent of students scoring below proficiency)

3. What do you expect to be the greatest contributing factor(s) to your greatest area of growth? Be specific.
(individual, team, curriculum, program, practice)

Content Area Data Analysis Sheet

List a grade and content area: **Grade _____** **Content Area: _____**

Materials needed:
- **CDE CST Blueprint for the grade and content area that you have chosen**
- **CST Student Master List Summary Sheet for the grade and content area that you have chosen**

1. Fill in the chart below.

- **List the individual reporting clusters for your content area in the left column (most content areas have only 5 clusters)**
- **Using the CDE CST blueprint for your content area, fill-in the second column from the left with the percent of questions on the STAR test that cover each cluster area**
- **Using the CST Student Master List Summary sheet, fill-in the next two columns with the cluster number possible and the percent that your student group got correct**

Content Area Clusters	Cluster Percent on CST Blueprint	Number of Questions Possible on the STAR	Mean Percent Correct	Admin Cluster Priority (Rank 1-5)
a)				
b)				
c)				
d)				
e)				
f)				

2. For which content area clusters did your student group perform the best?

3. Discuss the relative importance of each cluster area with administrators at your school level and come up with one or more focus cluster areas for this school year. Then rank each cluster area in the chart above (1 = priority focus, 5 = least focus).

Moving from Data to Planning

Your School: _____

Think about the schoolwide strategies you truly employed during last year to achieve your goals. List these strategies below and rank each of them on a scale of 1-5 (5 = highly effective and 1 = not at all effective). Check the strategies that you would be willing to share with or model for your colleagues.

Strategy	Rating (1-5)	Strategies to Share (√)
a)		
b)		
c)		
d)		
e)		
f)		

2. Take 5 minutes to reflect on the data that you have reviewed. Identify 2-3 areas that are emerging as possible high priorities and are of importance for the success of your school.

3. Plan with your other adminstrators at your school level to achieve success in these identified areas. Write down the key components of your plan below.
