Products & Services

Item & Description	Quantity	Unit Price	Total
Remote Learning Each week, three grade-level appropriate 20 minute videos will be sent to each site. The links can then be sent for the students to access. During each lesson, the students will engage in a specific SEL topic and explore fun and engaging ways of gaining an understanding on this topic. The students will be required to be physically active as they play a sport or an activity in their own living rooms. Student outcomes include: - An improvement in students physical and mental health - An increase in overall attendance and thus academic success - Students will feel more connected - Teachers will find their students more attentive following our program This price includes 2-3 hours of professional development covering: - Best practices for synchronous teaching of physical education curriculum - How asynchronous curriculum can be used to amplify and emphasize synchronous learning	32	$500.00	$16,000.00

Subtotals

One-time subtotal	$16,000.00

Total **$16,000.00**
