E. LEGAL STATEMENT

F. PUBLIC TESTIMONY ON NON-AGENDA ITEMS

Minutes:
President Oshinski read a public comment email from Monroe Elementary School teacher Michelle Henry-Ellis. In the email she thanked the Board Curriculum Committee for their support, courage and humanity to right such a long term egregious wrong in formal education. The adoption of anti-racism, multiple perspectives studies for TK-12 grades is cause for celebration. We are finally turning a wide corner toward justice and equal opportunity in our public education system.

G. RECREATION & PARKS COMMISSION REPORT - None

H. HIGH SCHOOL REPORT

Minutes:
Dr. Reginald Richardson and Dr. Ronald Richardson shared their high school report as follows:

Dr. Reginald began with an update on the high's school's after school math tutoring and study hall program. Great feedback has been received from students and families. To date, 23-40 students have virtually received tutoring support for their classes. EL inclusion and protocol was discussed for any students needing translation in the after school program. The math department is working hard on how to support students virtually during distance learning. Grade recovery is included in the after school program. Parents were contacted regarding their students who needed credit recovery. The program will take place from November 17 - December 17. This program is teacher led.

Library Update - Teacher Librarian Lori Sasaki has provided 95 recommendations for ebooks and curbside pickups for 31 students. This promotes literacy for students who enjoy reading through audiobooks and ebooks.

Student board member Mackenzie Cin will display a video during her report. The video shows students from the Leadership class to help our high school

students connect, celebrate and and lift their spirits in these unprecedented times.

Dr. Ronald Richardson continued the update by stating the third community forum took place on November 5. Thirty parents participated and provided positive feedback around the reopening plan. Feedback was also provided about how the high school is rolling out their sports conditioning and practice. The weekly Principal Connection continues to be a success. The high school counselors have been doing incredible work checking in with the students and supporting them with their academics and their social-emotional wellbeing and mental health. The school Culture and Climate committee was highlighted. The committee is aligned with the San Leandro Teachers Association (SLTA) and all of their departments across disciplines. The committee is a group of 20 teachers who work with the administrative team. The committee is working towards cultivating a strong collaborative professional learning community that promotes sharing best practices and building professional capital.

Dr. Ronald Richardson highlighted the high's schools second student panel which will take place virtually on Tuesday, November 17. The students who were selected to participate on this panel are a great representation of our diverse community and of the student body. Students will be given an opportunity to share their experience from first quarter/semester during distance learning. Discussion will include what went well and what needs to improve as a learning community. Teachers and the administrative staff will participate as listeners.

The third ELAC meeting of the year takes place on November 19.

I. BOND REPORT

Minutes:
Aaron Kerrigan, Director of Bond, provided a bond report as follows:

J1 Update:

Roosevelt Elementary School – Bond work at this site 95% complete. The plan is to move teachers and Davis Street during the November holiday break. Existing portables will be demolished.

Washington Elementary - all interior finishes are nearly complete; furniture is being delivered soon. The plan is to move teachers during Winter Break.

A video was displayed of the Madison Elementary School virtual ribbon cutting and bond upgrades.

J. COVID-19/REOPENING UPDATE REPORT

Minutes:
Dr. Sonal Patel, Assistant Superintendent of Educational Services, along with

Superintendent Dr. Mike McLaughlin and Rocky Medeiros, Director of Safety and Emergency Preparedness provided a Reopening Readiness Dashboard update.

A tentative timeline was displayed and reviewed.

On October 27 the board voted unanimously to use January as a target date for a phased reopening of our physical school facilities. Dr. McLaughlin emphasized that this date would be tentative in order to remain responsive and fluid to our preparation progress, the needs of our students, families and staff.

Dr. Patel provided an update on what January will look like as we approach the various holidays and breaks so that our community can plan accordingly.

The phased approach in January 2021 is starting with targeted in-person small groups for students and staff able to come to campus.

The school district is working to prepare our facilities and will assess and survey who would like to participate. in order to have protocols participants and agreements with our bargaining groups in place for a mid-January start.

In March 2021, the school district hopes to build up to in person instruction option via a blended (hybrid) model that would be offered alongside distance learning.

This timeline means that the school district is aiming for a trimester three for our elementary schools or quarter four for our secondary school sites for in person return.

Dr. Patel continued by saying that opening the schools gradually in small groups in mid-January will help us keep an eye on the concerning optics of COVID-19 cases while also letting us slowly onboard students and staff who are able to come to campus beforehand. It will also allow us to build upon the success and learning of our current in person programs and events that are happening in the school district.

* Our Enrollment office has been enrolling students and families in person for several months now

* Our athletic programs are engaging in on campus conditioning and workouts

* Our after school ASES program will open in a small format at three of our elementary schools

* Our special education staff is about to begin one on one in person assessments where virtual assessments are not recommended for students with IEPs

The school district does not know the impact of COVID-19 and the impact it will have on the start of the 2020-21 school year. Therefore, building back slowly

and optimizing our outdoor spaces in Spring can help us prepare for potential in person learning in the summer and in the fall for the 2021-22 school year.

Dr. McLaughlin commented on key words target and partnership. The school district has worked really hard to build strong relationships with our bargaining units. We strongly feel we cannot move forward unless we're all moving in the same direction. Communications regarding closing and reopening schools has been strong with our teachers because we want students and teachers to return to school sites when it is safe. Target means planning and prep to reopen. So we continually meet with bargaining units to discuss what reopening schools will look like.

The Board and Cabinet is working in partnership with all staff members to ensure that when the school district is ready to reopen it is safe and we're all on the same page.

Dr. McLaughlin thanked the entire community for their understanding and flexibility in dealing with these tough issues and concerns.

Distance learning will continue as students return from winter break in January. It will continue through June as always being an option for students and families throughout all phases that we go through.

Rocky Medeiros provided updates on phased reopening plans. He is a member of the COVID-19 Response Team. The reopening readiness dashboard update was displayed and reviewed. The dashboard is located on the district website and is continually updated as the items are at 100% completion. The items must be completed by the Center for Disease Control (CDC), California Department of Public Heath, California Department of Education, Alameda County Public Health Department and the Alameda County Office of Education.

The COVID-19 Response Team compiled a document called COVID-19 School Guidance. It is now in its 17th revision.

Rocky noted that while a tremendous amount of work has been completed there is still a lot of work ahead for the school district. The team will continue to work within the framework of the COVID-19 Guidance Document to develop a reopening plan and program that provides not only a safe environment for our students and staff but also maximizes educational opportunities within the district.
