Education Code Sections 60119 [as revised by Chapter 900, Statutes of 2004 and CCR, Title 5, Section 9531 (c)], requires the Board of Education to annually certify through a resolution as to whether each pupil in each school in the district has, or will have prior to the end of that fiscal year, sufficient textbooks or instructional materials, or both, in each subject, including English learners, in mathematics, science, laboratory science equipment for science laboratory classes in grades 9-12, foreign language, health classes, history-social science, and English/language arts, including the English language development component of an adopted program, consistent with the content and cycles or the curriculum frameworks adopted by the state board.

If the Board of Education determines that there are insufficient textbooks or instructional materials, or both, the Board of Education shall provide information to classroom teachers and to the public, setting forth the reasons that each pupil does not have sufficient textbooks or instructional materials and take action to ensure that each pupil has sufficient textbooks or instructional materials, or both, within two months of the beginning of the school year in which the determination is made.
