Trustee Area Review and Update

- California Voting Rights Act requires districts with Trustee Areas to review areas following decennial census.
- If Trustee Areas are found to be “not compliant”, adjustments must be made.
- Timeline for current review is compressed due to late release of 2020 census data.
- If updates not made by February 28, 2022, county office of education required to hire a firm to review areas and impose any necessary adjustments.
- Final Trustee Areas must be sent to Alameda County Registrar of Voters and will be in place for next election.

Current Trustee Areas

- Current boundaries were last reviewed in 2011 following 2010 census
- Population changes over ten year period make updates to Trustee Areas necessary

Trustee Area Timeline

- May 2021 Contract approved with Davis Demographics
- October 2021 Areas reviewed using newly released census data
- November 2021 Draft area updates presented to Advocacy Committee on 11/2 and Governing Board on 11/9

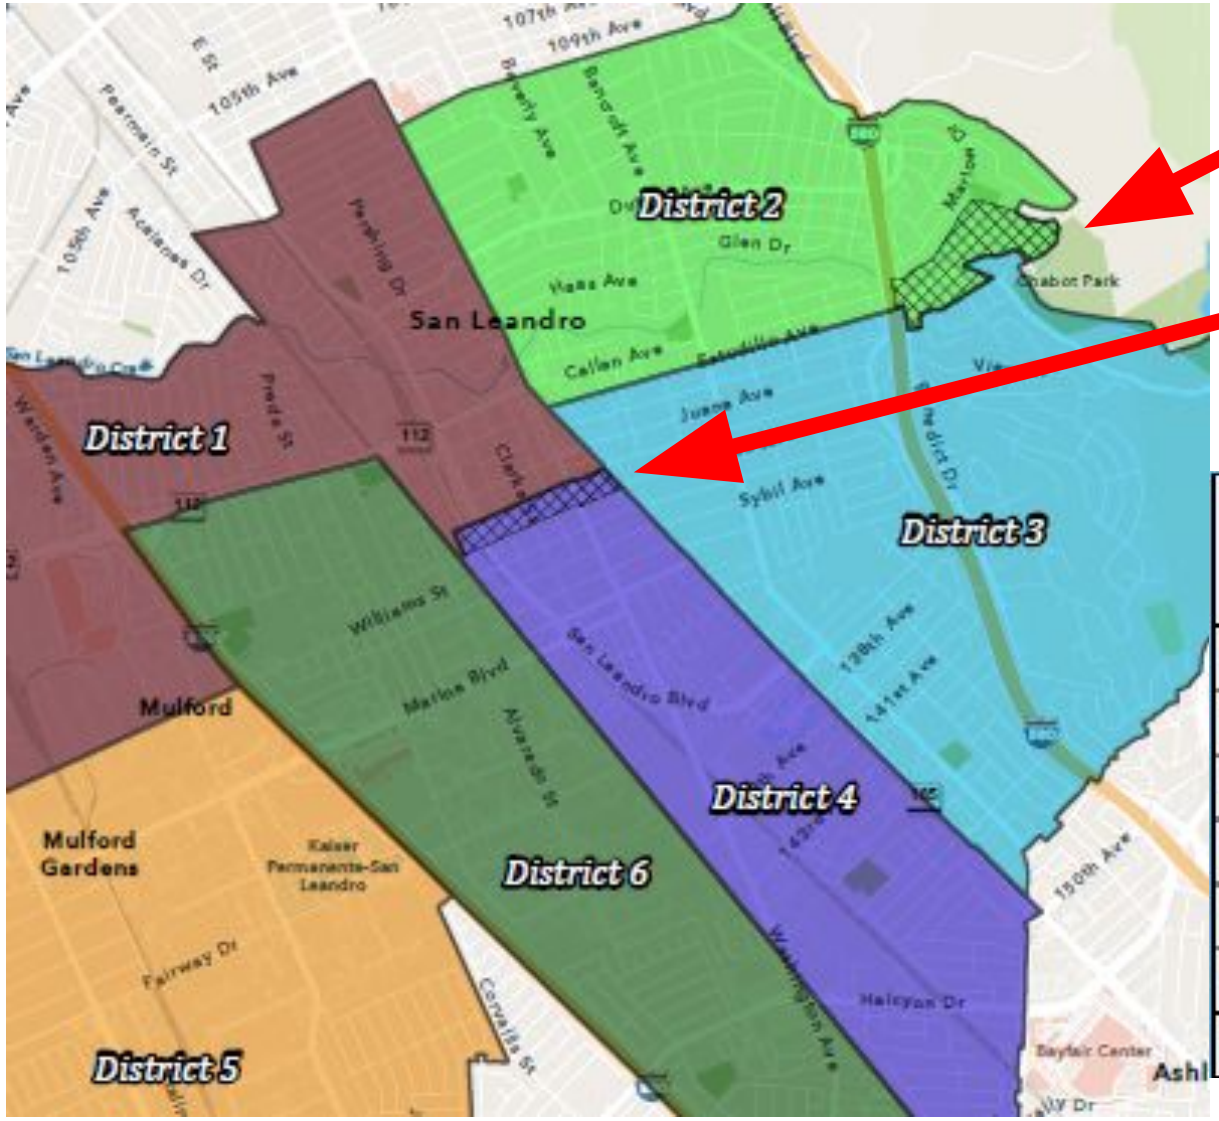

Trustee Areas - Compliance Requirements

- 10.0% maximum deviation for total population from lowest to highest
- Trustee boundary changes should follow census block boundaries
- Trustee Areas should be “geographically compact”
