COVID-19 Mobile Testing Partnership
January 1, 2022- March 31, 2022

Native American Health Center, Inc.
2950 International Blvd
Oakland CA 94601

Zarina Zanipatin, Assistant Superintendent, Administrative Services
San Leandro Unified School District
835 E14th Street, Suite 200
San Leandro, CA 94577

This letter of partnership summarizes the agreed terms between Native American Health Center (NAHC) and San Leandro Unified School District.

BACKGROUND:
NAHC seeks to address health disparities resulting from the COVID-19 pandemic by increasing the availability of COVID-19 testing to those most impacted by the pandemic.

NAHC shall provide one stationary unit three days a week, to provide testing to SLUSD students, their families, and SLUSD staff.
NAHC shall provide one mobile unit 2 days a week to respond to COVID-19 exposures at SLUSD designated school sites.

As part of this collaboration:

NAHC will:

- Operate a three-day a week stationary COVID-19 PCR testing team at the Barbara Lee Health Center; with a daily testing capacity of 140 PCR tests per day.
- Operate a mobile COVID-19 PCR testing team 2 days a week at SLUSD designated school sites with a total daily testing capacity of 100 tests per day and no more than three school sites per day.
- Be responsible for NAHC staff transportation during mobile response.
- Provide accessibility to free testing services regardless of insurance with no cost to the individual.
- Comply with Alameda County testing criteria, guidelines and goals and HIPAA requirements.
- Contract with Perkin Elmer Valencia Branch for the processing of COVID-19 samples. Perkin Elmer Valencia Branch is a laboratory that is certified by Clinical Laboratory Improvement Amendments (CLIA).
- Provide a web-based portal through COLOR for consumers of the SLUSD testing site for registration and test results. Color's COVID-19 testing platform includes integrated software that will assist NAHC with case reporting to Alameda County Public Health Department. NAHC does not provide case investigation or contact tracing.
    - Turnaround times for test results will be given through automated text or email within 48-72 hours directly to the consumer. Test result time frames are dependent on the laboratory processing of samples.
- NAHC will oversee site logistics, including but not limited to: site set up, traffic cones to assist safe distancing and workflow, signage, and flow of pedestrian traffic through the testing site.

- Provide and oversee staff coordination and clinical services associated with testing, including: providing licensed clinician(s) and / or other appropriate healthcare workers to perform or oversee sample collection.
- Provide support staff to support licensed clinician(s) in sample collection, intake of registered patients, and assess cognitive ability of individuals to provide consent.
- Will ensure all site staff conduct themselves with a high level of professional and culturally respectful behavior in all public interactions. Wherever possible, will make effort to engage community members from targeted areas in their testing efforts.
- Provide COVID-19 testing for persons who are one years of age and older. Those who are between the ages of 1-11 need to be accompanied by a parent or legal guardian. Persons who are 12 years old and above may self-consent to COVID-19 testing.

San Leandro Unified School District will:

- Provide well-lit safe indoor site location with pedestrian access.
- Provide a space to safely store equipment and testing supplies with in a reasonable distance from the testing site.
- Provide staff member who can provide access to the Barbara Lee Health Center for opening and closing the operations of the testing site.
- Responsible for daily site cleanup and garbage collection through out the service hours of the testing site.
- Provide access to Wi-Fi and electricity as needed.
- Provide restroom/break facilities for NAHC staff members.
- Support with community outreach and promotion of COVID-19 testing services.
- Promote referrals to NAHC for linkage to services and follow-up to individuals who need access to healthcare services.
- Designate SLUSD point of contact for mobile response assignment and needs.
- Communicate designated SLUSD school site requiring mobile COVID-19 testing services at least one day prior by 5pm. Provide school site name, address and school point of contact.
- Will coordinate directly with school site administration to identify designated testing space within the school site that is suitable for mobile testing (i.e. well-lit, indoor with minimum of 2 tables and 3 chairs, accessible to Wi-Fi and large enough to support testing volume).
- Will coordinate directly with school administration to support and promote on-line pre-registration and parent consent through on-line COLOR portal.

DAYS/HOURS OF SATIONARY TESTING SITE:

- Tuesday, Thursday, and Friday
- 8:30 AM – 5:00 PM with lunch between 1:00 PM – 2:00 PM

DAYS/HOURS OF MOBILE TESTING TEAM:

- Monday and Wednesday
- 8:30 AM – 4:00 PM with an operational adjusted lunch period of 1 hour
